## HYOSCYAMUS

### Introduction:-

It is an anti-syphilitic and anti-tubercular medicine. It is moderately deep acting remedy which can cure many nervous and hysterical complaints on the physical and mental planes.

### I.Pathological symptoms:-

- 1)Puerperal mania and insanity.
- 2)Toothache, earache, headaches, cramps, twitchings, catches, paralysis. Hysterical fits and convulsions of children and epilepsy.
- 3)Nymphomania (ಮದಪಿಚ್ಚಿ), religious insanity (sex or religious).
- 4)Fever soon becomes typhoid with delirium.

### II.Constitutional symptoms:-

- 1)Emotional, nervous, hysterical and ill balanced people. Often perverted in their views.
- 2)They are ardent to the degree of insanity.
- 3)He often discusses about matters of sex and photos of nudes, pictures of genitals and sex literature. He is fond of peculiar hobbies like stripping nude rituals, nude societies and sex literature. Sex mania in old age. When impotency grows – 10M, Old ladies mad after youth and old men, men after girls. Wants to appear prominent in the company of the opposite sex. They are very particular about their dress as young people, hair dyeing etc.

### III.Mental symptoms:-

- 1)Hysterical temperament, great emotion in describing everything, increased activity in the presence of opposite sex. (*Caladium*) (*Hyoscyamus* – sight, *Caladium* – touch).
- 2)Restless and fearing everyone. They fear black magic.
- 3)Fear of being alone because he is afraid of ghosts in the house. He suspects that someone may poison him. Always he is aware that there is a plan going on against him or that the police are on the watch.
- 4)Too much frightened of dogs, insects and bugs. He always suspects food poisoning from his own relatives or family circle. Gross self-deception.
- 5)Laughs at everything, plays buffoonery at everything.

6) Insanity – sings songs though he doesn't know music. Composes songs extempore. Generally he sings, talks and comments about the genitals. Desires to show genitals, desires to sleep naked. Immodesty of behavior.

7) Sensorium clouded, staring eyes, grasping at something.

8) Believes that they have been sold away or killed by poisoning.

9) Involuntary stool or urinating.

10) Great dread of darkness.

**IV. Modalities:-**

1) Convulsions from fright in children.

2) Convulsions from worms.

3) Convulsions from overwork.

4) In little children studies over taxed with many text books. The frightful convulsions indicate this.

5) Convulsions during or after labour or puerpera.

6) Convulsions and vomitings after a meal – 200 1dose. (*Cocculus indicus*).

7) Convulsions like death.

8) Twitchings of eyes and muscles.

9) Blinking of eyes and local twitching (*Agaricus*).

**Agaricus:-** General behavior show no oddities. Quite sensitive mind and least affected, only nerves are effected.

**Important:-** If the patient happens to be of a *Hyoscyamus* patient it must be the product of parents who have abnormal behavior of sex.

10) Pains make him mad.

11) Fever – *Belladonna* – *Stramonium* – *Hyoscyamus*.

S.No.	<i>Belladonna</i>	<i>Stramonium</i>	<i>Hyoscyamus</i>
a.	Typhoid – within 2 days.	After 2 days	After ten days.
b.	–	After Belladonna	After Stramonium
c.	Acute fevers with delirium	Not required	Not required
d.	Fever sudden rise and fall	Not so sudden	Gradual
e.	Fever very high rugged.	Moderately high Max. 104.5°F	More moderate 101°F to 103°F.

		Generally 102.4°F a little more.
f. Eyes sparkling.	Eyes red.	Eyes and face pale.
g. Eyes fiery.	Staring alternating with fright.	Stupor, staring, fright, unconscious
h. Tries to escape from bed.	Same.	Same.
i. Barks like a dog.	Moans and weeps.	Weeps, laughs, sighs and accuses.
j. Fear and bites.	Stares and weeps.	Exposes, tries to make himself naked and speaks of genitals.
k. Someone or an animal Is chasing him.	Ghosts or recently dead.	People are trying to catch him, Sell him away or kill him by Poisoning.
l. Cerebral inflammation Of nerves and brain.	Spinal, less danger.	Hysterical, insane, deeper.
m. Quick recovery.	Recovery takes one week.	Recovery takes 3 or many weeks.
n. < 4 AM to 4 PM.	No < period.	No < period.
o. Acute condition 200, few more doses may be required.	Rarely repetition may be required.	Repetition of dose may spoil the case.

When the mental symptoms are prominent higher dosage is to be administered.

12) Acute sufferings like cough or pains < by lying down. They are definitely better from sitting or standing (opposite to this symptoms is *Belladonna*).

13) All acute sufferings are < at night after eating or drinking or talking or singing. (*Bryonia* – cough begins at 9 PM. Without eating or drinking. It will last for an hour or two and recedes.

14) Mental symptoms are preceded by insomnia.

15) Paralysis (or) Bladder (urine stopped) (*Cantharis*).

#### **CANTHARIS:-**

1. Horrible burning and itching of the urethra.

2. Urine passes like liquid fire.

3. Urine dribbles and drops. Each drop make her weep.

4. first she shouts, scolds, uses abused language, next she makes herself undressed and run through streets.

5. Afterwards develops homicidal tendencies grows.

6. The symptoms are violent than *Hyoscyamus*.

7. Blood or pus in urine.

8.a) సాధారణంగా *Cantharis* patient కత్తి పీట కాని, చాకు కాని విసురుతారు.

b) Loss of speech, he weeps, after paralysis his sex instincts <.

c) Infantile paralysis starts with convulsions. The child goes into a nagging type. (ఎప్పుడు ఏడ్చుట).

#### ***HYOSCYAMUS important:-***

అతివినయం, అతిభయం and confusion of mind, fears everything. Goes on explaining things for hours.

While he cannot make any point clear. ఈ లక్షణములు కనిపించిననూ, పై లక్షణాలు ఏమున్ననూ *Hyoscyamus*

200 one dose వేయవలెను.

#### ***HYOSCYAMUS Causations:-***

Sudden fright, over indulgence in sex, cerebral diseases and their after effects, unfortunate love stories (*Ignatia, Nat Mur.*) Continued jealousy, abnormalities of sex (*Acid phos, Bufo, Caladium*).

#### ***CALADIUM:-***

All the floods of their mental activity will be occupied with sex activity. He stands at the female pictures for hours. Emotional imbalance. He actually presses and kisses his friends.

#### ***BUFO:-***

Mental capacities decrease. The fellow goes into idiocy i.e, loss of comprehension.

#### ***ACID PHOS:-***

Weeping (unnatural), suspects wife, cruelty, mentally tired. Business embarrassment. Injury to the nerves.

#### ***HYOSCYAMUS Relationship:-***

Complementary to *Phosphorus, Acid phos, Natrum mur, Ignatia, Cantharis and Thuja*.

*Natrum mur* is chronic drug of *Hyoscyamus*. Many things required after *Belladonna* in cerebral fevers like meningitis etc. When the rest period is over the patient goes into *Hyoscyamus*.

No inimicals.

## THUJA

### Introduction:-

A very deep acting, long acting, anti-sycotic drug. It is equally indicated in very urgent acute diseases as well as slow, long standing diseases.

Very frequently indicated in low potencies i.e, 6 and 30. Complications after vaccination, eruptive fevers like measles, in whooping cough, after small pox and chicken pox etc.,

### I.Pathological Symptoms:-

1)All types of hard growths on the skin, cutaneous layers for example warts, fig warts, corns, pimples, exostosis (ఎముకల మీద కాయలు), polypi in ears, nose, throat (*Causticum, Spongia, Medorrhinum, Nitric acid*).

*Causticum*:- If the above are on the fingers, wrists and toes.

*Spongia*:- The skin symptoms are inter changeable with respiratory symptoms.

*Nitric acid*:- Inter changeable with gastric and urinary symptoms.

*Medorrhinum*:-When the symptoms are confusing this can be safely given.

Chil blains, deep ulcers that eat away into the bones (leprosy, septic wounds.etc.,)

**Cancer**:- *Carbo animalis, Lycopodium, Lac can, Calc carb, Calc silicate, Calc sulph* – ఇవి పని చేయనటువంటి సమయంలో *X-ray 30 కాని Magnetis 30 కాని, Carcininum 30 కాని* వాడవలెను.

2)Gangrene especially gangrene of cheek and ankle.

3)Hernia.

4)Orchitis, big swelling of one testicle with great pain (*Pulsatilla, Opium, Rhododendron 200*).

5)Hardening of glands (cowboy disease, అడ్డ గడ్డలు).

6)Puerperal mania.

7)Insanity.

8)Styes.

9)Fistula in anus.

10)Stoppage of urine or stool.

11)White scaly dandruff.

## II. Constitutional Symptoms:-

1)Hydrogenoid constitution ఉడు ఒళ్ళు, sleshma తత్వం (Matty type of skin texture, coryza, body pains, puffiness, swellings, < cold weather, damp weather, cloudy weather, sea shore (*Nat sulph*)).

Lymphatic Constitution:-కఫం, కళ్యే, చీము ఎక్కువ, కొవ్వుపదార్థాలు ఎక్కువగా వుండును. పొట్ట దగ్గర, చేతుల దగ్గర మడతలు పడును. ముడుతలలో skin eruptions, glands painful, swollen, muscle flabby, కండరం ఎక్కువ లావు, తక్కువ శక్తి కలిగి వుండును..

2)Hair dry, falls early (*Psorinum, Syphillinum, Merc sol*).

*Syphillinum* – Hair fall, itching of head, eruptions, dullness, long fevers repeated.

*Psorinum* – Hair matty, tangled cannot be combed, hair split at the end.

*Selenium* – Hair falls, scalp smooth, eye brows, fall of hair on genitals, sweat stains yellow, whole sleep is a dream, dreams matters of the day, dream continues after an interval, recovery very slow, frequent wet dreams in old age, pain in loins and legs, pains < coition.

3)*Thuja* sweat – sweet, brown or blood stained.

4)The eyes and ears are not clear. Eye lids itching and painful often the eye lids are agglutinated. (*Graphitis, Apis, Rhus tox, Arnica, Merc sol*) eyes always oozing some liquid. Often ears are oozing, itching. The axilla, groins, the folds of the elbows or knees are most smelling. They smell like putrefied leather. The genitals are always moist and also the rectum. The whole body sweats easily and the patient faints from a little walk of exertion. Sweat attracts flies. Sometimes the sweat smells like garlic. And some people smell like beer or toddy or honey. The patient bleeding very easily from any place. Especially the friction of the folds causes bleeding. The skin becomes red when angry or exposed to sun. the tongue bleeds when cleaning (*Alumina, Lachesis*).

## III. Mental Symptoms:-

1)Fixed ideas which are very peculiar to others. That all mankind is going to be insane.

2)*Thuja* – Patients may die either insane or semi insane.

3)*Thuja* patients సామాన్యంగా *Hyoscyamus, Cantharis, Anacardium* insanity లోకి వెళ్ళిపోతారు.

4)Soul and body separated.

5)That he is in the control of a great spirit or a great master.

6)A Strange person is guarding him that some typical invisible being is going in the home. (*Anacardium, Hyoscyamus, Thuja*).

7)The fellow feels that some living being is in his belly. He bears the animal howling in the stomach. The lady feels that she is pregnant. The unmarried lady of *Thuja* that she might have committed a sin with an angel or devil.

8)That somebody is moving in the home. Feeling the presence of people.

9)The patient develops an affinity to his smells.

10)Cannot be touched “parts of the body break when touched.” Feels as if parts were made of glass.

### III.Modalities:-

1)Vertigo on closing the eyes. (*Lachesis, Conium*).

2)Toothache or headache < sex life, over heat, after drinking etc.,

3)All symptoms < from onions or tea.

4)Chills starting in thigh.

5)Toothache and headache as if a nail were driven. (*Chamomilla, Coffea*) Any pain as if the head of a button is pressed in.

6)Ophthalmia neonatorum (*Thuja 6*)

7)Eyes – a)Itching, oozing.

b)Agglutinating.

c)Pain in eye balls while reading. a,b,c > warm covering. < by exertion or cold water.

8)Catarrhal flow after a)Measles b)Chickenpox c)Smallpox d)Vaccination.

9)Sweats - a)Stains brown or bloody.

b)Smells like garlic, honey bees, toddy.

c)Attracts flies.

10)Eructations on empty stomach (*Natrum sulph*)

11)Free motion after fasting.

12)Constipation after dinner.

13)Boils with blood and pus don't burst. Whitlow (*Carbo animalis, Hepar sulph*).

*Carbo animalis* – Cracks for cold air.

*Hepar sulph* – Dreads cold air, keeps himself always covered.

*Belladonna* – Redness, heat, burning, fever, headache.

*Apis* – Red burning > cold water. ఒక గడ్డ పోతే మరొకటి అదే చోట వచ్చును.

14)Teeth – Painful in the roots. Decay in the roots. Turn yellow. Smell like rotten apple or almonds.

15)Tooth pains in the ear or eye. Tooth pains, in the head (*Ipecac*).

16)అమ్మోనియా వాసన చూసిన sensation వచ్చును.

17)Constant movement in the abdomen.

a)An animal crying.

b)A snake or mole. (పంది కొక్కు)

c)Arms of foetus (పిండం కదిలినట్లు)

A) A pain in abdomen < by drinking water or walking or riding. > by lying down.

B) The sounds of water taken in area heard by walking.

18)Extreme sensitiveness of female parts. (*Coffea*).

19)Eruptions on the covered parts sweat on exposed parts oozing from orifices.

20)Severe cutting pain after urination. (*Bryonia*).

#### **IV.Causations:-**

1.After effects of vaccination, eruptive fevers or suppressed gonorrhoea.

2.The history of animal bite especially dog bite is traced before the beginning of the chronic disease.

#### **V.Relations:-**

*Thuja* is a chronic drug of *Natrum sulph*, *Argentum nitricum*, *Nitric acid*. Complementary to *Medorrhinum*, *Psorinum*, *Sulphur*, *Merc sol*, all animal poisons. Inimical drug is *Allium cepa*.

## **MERC SOL**

#### **Introduction:-**

A strong antisyphilitic, antipsoric and antisycotic. A very deep acting, very long acting medicine. A medicine often useful for infants, old people and those who have degenerated tissues pale and weak

constitution degenerated smell of backed meat preserved. It effects the hardest of all tissues like bones and teeth and breaks them to granules and pieces.

### **I.Pathological Symptoms:-**

- 1.Liver diseases.
- 2.Anaemia.
- 3.Indigestion of a chronic nature.
- 4.Dyspepsia. కడుపులో జీర్ణాహారములు తక్కువ. క్షీరములు ఎక్కువ.
- 5.Loss of appetite, loss of taste, loss of smell.
- 6.The gland troubles (enlargements, hardening of glands, sometimes boils, sometimes abscess or glands, pus will be greenish or yellow or gray in colour, smells like rotten meal, painful glands, after suppression of gonorrhoea.
- 7.Ear, nose, eyes troubles – itching, moisture, pus greenish yellow.
- 8.Smell of rotten meat, boils smell of rotten meat, greenish yellow, painful chancres, furuncles, polypi, adenoids, tonsils swollen.
- 9.Sore mouth, gums bleeding, gum boils, eczema. Weakness of the nerves with trembling of parts, paralysis with trembling, exostosis (ఎముకల మీద కాయలు) dysentery with severe stomach pain.

### **II.Constitutional Symptoms:-**

- 1)A patient of long standing sickness with slowly increasing debility and weakness with short breath which is distracted by least walking and exertion. The breath smells mercurial odours.
- 2)The mouth is often sore and inflamed, the gums swollen, grey in colour and receding with dirty yellow deposits or grey deposits at the root of the teeth often gum boils, pain like pin pricks. The teeth often changes in colour and get decayed. The tongue is felt increased in size and it has serrate margins. It carries the print of teeth. The taste is decreased and the mouth smells rotten cheese, excess of salivation makes speech awkward.
- 3)The patient i.e, points painful and heart palpitates by walking or exertion.
- 4)The skin is greasy and shining and has the colour of greenish brown tinge. Many time it has pale black spots and is swollen around the eyes and near the joints.
- 5)He sweats too much and the sweat smells.
- 6)He has frequent urination of water like urine without any contents.
- 7)He dislikes food and cannot digest nutritious food. The throat often ulcerates and pains like pin pricked.
- 8)The changes of climate, temperature produces health disturbances every time.
- 9)Easy pus formation of any small injury and takes a lot of time to heal.

10)The body lacks in heat and generally the affected are colder than the rest. The skin ulcerates and then it is cold.

11)He has repeated history of liver troubles with jaundice.

12)He lacks enthusiasm and feels discouraged and weary of life. Always he feels exhausted and is slow and he answers questions after a pause.

13)Sometimes male and female shows endocrinal disturbances. The young man sometimes bears milk in his breast and feels painful. The lady bears milk when she is not a mother. More often milk follows during menstrual period. Sometimes instead of menses there is only milk flow.

### **III.Mental Symptoms:-**

1.He is slow in grasping and poor in comprehension.

2.Lazy and forgetful.

3.No enthusiasm to do anything.

4.Often his movements are hasty, jerky and hurried. (parkinsonism is not rare).

5.Restless in understanding and planning. He spoils many things by wrong planning.

6.He is anxious and idiotic.

7.He thinks before he answers because he has to think to understand a simple sentence.

8.He develops a picture – interest to die or specialize in the literature about death.

### **IV.Modalitis:-**

1)Most forgetful when it is cloudy.

2)Restless and jerky when sun is hot.

3)Chilly, fears the chill – All sufferings < chill weather, winter.

4)Dreads summer. All the nerve troubles, boils and diabetic symptoms are < during summer.

5)Very sensitive to change in the weather, worse from the extremes of temperature.

6)Acute symptoms < from the warmth of the bed. (skin burns, erupts, feels hot where it touches the bed. Bed sores in the bed ridden patients.) Force to uncover and gets worse again by uncovering. (pains, fevers, ulcers and eruptions).

7)Restless in mind and body cannot find peace in any position. (cancer, gangrene, T.B.)

8)In acute disease like typhoid, the room smells, smell of the patient, the breath smells, the stool and urine are very offensive and smell like rotten meat.

9)The stool in the acute diseases is stuffy, loose, grey or greenish yellow. (*Chamomilla, Phosphorus, Argentum nitricum*)

- a) Involuntary salivation during talk or speech articulation ఉచ్చారణ difficult.
- b) Gums and mouth grey, pale, ulcerated, gum boils, apthae.
- c) Gums recede, smell and expose the root of the tooth, which soon turns yellowish.
- 10) All pains and burnings are < during night.

**Important:-**

- 1) Skin of joints become dry hardened in advanced stages, it shows oedematous swelling.
- 2) Glands hardened, swollen, painful, sometimes ulcerated and ooze pus from wound.  
(Neck glands of children and old people, breast glands of ladies after menopause.)
- 3) Feels tongue swollen like -----, loss of taste, serrate margin, eruption of teeth.
- 4) Ashy white ulcers, boils, discharges. The stool is greenish, constipation alternates with diarrhoea.
- 5) Nails decay, teeth decay, hair falls (*Syphillinum, Phosphorus, Antim crud, Selenium.*)
- i) Rheumatic inflammation and catarrhal inflammation. < from winter and cold weather.
- ii) Skin eruptions, boils, urinary symptoms, fever < heat and summer (carbuncles, multiple abscesses) (February 20 to April 20). Syphilitics, Calcareae. May 20<sup>th</sup> to July 20<sup>th</sup> – Psoric.

అమావాస్య February 20 <sup>th</sup>	}	1.పచ్చి మామిడి రసం 1/8 <sup>th</sup>
		April 20 <sup>th</sup> వరకు - 2.వేప పువ్వు 1/16 <sup>th</sup>
అమావాస్య May 20 <sup>th</sup>		3.చెఱకు రసం main
		4.అల్లపు రసం 1/64 <sup>th</sup>
		5.కరివేపాకు రసం 1/8 <sup>th</sup>

ఇవన్నీ కలిపి ఉగాదికి 40 days ముందు నుండి రోజు తీసుకోవడం వలన ముందు కాలంలో వచ్చే infections రాకుండా body ని tone up చేస్తుంది.

- 6) No relief of any suffering from sweats a) fevers (*Opium*), b) headache, c) palpitation, d) pains.

**OPIUM:-**

Fever very high 103°F to 106°F.

Face blue.

Heat radiates.

Hot sweats drenching.

Drowsy sleepy. No sleep at all for days.

No suffering.

No intake.

A false sense of wellbeing.

No motion for days or weeks.

Stool is a lump of a marble like stone hard ball. Rectum cannot expel, should be mechanically removed.

Progressive emaciation with trembling of limbs, he cannot walk (Parkinson's disease).

7) **Merc Sol**:- Parkinsonism – The patient will have no control over limbs. When he begins to walk he will not be in control. He can walk for miles and miles but he cannot stop. (Cause – due to miasm of syphilis.

*Helleborus 30* 1dose for 6 months, *Syphillinum 30*, *Causticum*, *Conium*, *Bufo*, *Merc sol*, *Cuprum met*, *Zincum met*, *Argentum met*.

*Syphillinum 30* 1 dose a week for few months and then monthly doses of 200 for few months and 1M for every 6 months after that 10M. *Conium*, *Bufo 30* weekly doses, *Sulphur 30* alternates. When disease is deep the medicines touch the core of life and even though there is relief, there is always danger to the life. Hence the medicines should be cut off after 3 or 4 weeks and *Sulphur 30* to be used. The patient improves. Then if he begins to go down within half an hour or one hour give *Tuberculinum 1M*.

No tendency to repair. (*Tuberculinum*, *Syphillinum*.)

i)The symptoms are cured, patient not better.

ii)*Tuberculinum* – Indicated remedies fails to sustain action.

iii)*Psorinum* – Indicated remedy fails to act.

8)*Merc sol* – pale ash colour discharges, eruptions, tongue thick lumpy feels swollen margin, serrated. Patient will be smelling mercurial odours. The smell of mouth is like the smell of rotten meat.

*Nitric acid* – Long standing complaints, progressive emaciation, suffering with changing symptoms. No recovery for years. The rheumatic pains are similar to *Merc sol*. Mouth is often so red as in *Merc sol*. But there is no serrate margins tongue as in the case of *Merc sol*. The tongue is red as if blood. Sometimes bleeds. The tongue will be cut off horizontally. (typical symptoms)

*Merc sol*  $\longleftrightarrow$  *Nitric acid*

These two drugs will neutralize each other.

9)Gangrene of lips, cheeks, gums bleedings, smell, grey colour, fever with chill, patient becomes drowsy, tongue is sore, very painful, he cannot swallow anything into the mouth, salivation. All the above symptoms except grey – it will be *Merc cor*. In it is red colour, the sufferings will be double than the *Merc sol*. If the gangrene was white spots and the intense suffering are much more than *Merc cor*. Then it is *Merc bin iod*. These three drugs can be used in 30 dose. Can be repeated after an hour if necessary.

10) All sufferings especially the joint pains and the skin symptoms < from covering the parts. > from exposure. Feels relief by undressing (opp. to this modality is *Psorinum*. All symptoms worse while undressing.)

11) Tongue workers disordered – child cannot talk. Mental cause – *Baryta carb* 1M. General weakness or nervous debility – *Causticum* 1M.

12) Impulse to kill himself.

13) In ladies – great anxiety and sadness during menses.

14) Milk in breasts at the time of menses. Milk in breasts instead of menses. (vicarious menstruation – *Phosphorus*.)

*Phosphorus* – nose bleed instead of menstruation, vomiting instead of menstruation only in this symptom the drug can be used during the suffering.

**Key note:** - Puberty delayed or no menses after 18<sup>th</sup> menses. Very rapid abnormal growth of the girl – *Phosphorus* 1dose.

15) Sterility with scanty flow, gouty joints, bad teeth, hair on chin. H/O mercury poison in the past. (After menses use 10M 1dose.)

16) Lingering fevers after ear discharges are suppressed. False typhoid – *Merc sol* 200 1 dose. Head drawn back, stiff, high fever, prolonged duration (false cerebral fever) – *Merc sol* 1M.

17) Headache – Headache from over the nose as if the scalp was tied. Something very hot in the head.

18) Periodical bone pains < from damp weather.

19) Joint pains are fever with chills repeatedly occur  $\longleftrightarrow$  with pus in the ears or sweats in head and on the palms. (1M)

20) Brain fever after measles – *Cuprum met*, *Apis Hydrocephalus*.

21) Eye troubles – ophthalmia, myopia, diplopia.

Itching < from looking at the fire. Brilliant light, shining surfaces, tears excoriate, intense photophobia, swollen eye lids.

22) Stringing pain or smarting pain or pin pricks in the affected parts. (*Apis*)

23) Any suffering of the thorax < lying on the right side (lung troubles, pneumonia, cough, liver troubles, bowels troubles, asthma).

24) Frequent urge to urinate, dribbling sensation or pain or burning (gonorrhoea).

Bloody urine with great burning.

25) Burning, stinging, pain prick sensation with discharges in ladies. (little girls even before puberty have this symptom.)

26)Boils itching or eczema like skin during menses along with pimples on the face. (*Cimicifuga* or *Actea racemosa*).

Oedematous of genitals during menses or pregnancy. Repeated miscarriages. (*Sabina*)

**V.Causations:-**

- 1.Nerve troubles after suppression of discharges.
- 2.Rheumatism developed after an attack of Syphilis or Gonorrhoea.
- 3.Senility as old age approaches with history of gonorrhoea during early years.

**VI.Relationship:-**

Merc sol is inimical to Silicea.

## TUBERCULINUM

**Introduction:-**

It is the king of antituberculosis drug. It goes to the deepest layers of life.

**I.Pathological Symptoms:-**

- 1.Frequent fevers (Malaria).
- 2.Repeated cold, cough, phlegm with feverish conditions.
- 3.Loss of blood through any orifice frequently nose bleed.
- 4.Frequent uterus haemorrhages. Bleeds of the gums or teeth when cleaned, less risky with tooth bleed. (*China, Chin ars, Chin sulph, Achyranthus aspera 6, Ficus indica, Ficus religiosa, Calotropis 6, Kali bich, Merc sol and Merc cor.*)
- 5.Decay of teeth (in young children), smell in the mouth of rotten meat (*Phytolacca, Merc sol*).

*Phytolacca 6* – one dose a week, when shows improvement, increase to 30, two doses a month. A strong syphillinum and T.B. drug. It is known as Mercury of plant kingdom, grownups nodular growths anywhere in the body. A small may be formed either on the bone or anywhere (*Calcareo fluor*).

*Calcareo fluor*:- Fear of poverty, muscular nodules.

Muscular nodules, glands hardened. (around the neck), painful along with boils, pus (*Calcareo sulph, Calcareo phos, Merc sol*) *Tuberculinum 10M*. Pus golden yellow or milky white. The whole gland will be converted into pus in course of months or years – *Calcareo sulph*. Stone like formation – *Calcareo phos*.

In the beginning *Calcarea sulph* 6x. After six months if reappearance is there use 30. After sometime if appearance is there use 200.

**Note** – If patient has no resistance use of the Calcareas in higher potencies is very dangerous.

## **II. Constitution And Mental Symptoms:-**

1. Dread of cold and chill much covered all day long.
2. Feels fever whenever he is exposed to chill.
3. Burning in throat and bronchus.
4. Taste disturbed, smell decreased, bitter taste.
5. Goes into real fever whenever physically or mentally over worked.
6. Frequent chest pain, heaviness of chest, breathing heavy, though there is no phlegm.
7. The collar bones, shoulders, scapula, the neck muscles very frequently troubles the fellow with pains. Sometimes when the cold, cough is present the pains are less. When the pains are increased the lung symptoms will have a betterment.
8. The patient is weak, dull, drowsy when the lungs are clear or when the asthma is not present. Total relief of asthma may lead him into coma and death.

**Very Very important Caution:-** A healthy person attacked by a sudden violent acute disease, sometimes faces a crisis. It is only a temporary and if averted the patient is out of danger within hours. In such a condition you safely use very deep medicine when indicated even in very high potencies. But when the person is debilitated for long time due to chronic miasm, then the acute condition is really dangerous. You cannot use deep drug like *Tuberculinum* or *calcarea*. Also you cannot use potencies higher than 200. They may kill him.

9. A sense of insecurity in everything haunts the patient. He has no confidence in either himself or other. Let it be a doctor. He suspects the doctor and changes him often.
10. Got fed with the present job. Always wants to go away and join a new job.
11. Changes the house many times in the year. Something wrong with the house. A lady changes the servant 3 times a month and fights others servants virtuously.

## **III. Modalities:-**

No recovery of the patient with well indicated remedies. The symptoms are cured but the patient is not better.

- 1) Symptoms ever changing.
- 2) Cyclic recurrence of group of symptoms. (*Malaria, China, Ars alb*) Trembling chills – *Gelsemium*.
- 3) Progressive emaciation, the patient grows more and more bony without flesh. (*Calcarea carb*)
- 4) Progressive emaciation with an increase of hunger. The patient wants to eat every two hours.

5)Stony hard, enlarged glands.

6)If the patient wants to get himself covered and chilly – *Tuberculinum*.

7)If the patient has great cravings for cold air, cold water, wants to lie naked on bare floor.(*Iodium* - As deep as *Tuberculinum*.)

8)Unbearable headaches every day for some weeks. They recur after few months again. They start about an hour before awaking of sleep. The headache disturbs them. They can't move from bed in the morning. (*Tuberculinum* 10M, if symptoms recurs after 6 months use 50M).

9)Loose motions with sweat and weakness daily before 10 AM. (*Tuberculinum* 200 repeat with recurrence same dose.)

10)Incurable eczema in the groins, waist face or head.

11)Loose motions, colic (recurrence).

12)Headache.

13)Cold and fevers or asthma.

**Caution:**-The more in the advanced case is – lung symptoms threatening. The lower should be the potency to start. Any nosode can't be given lower than 30 potencies. Higher potency action of the lungs are stimulated.

*Chin sulph 3x, chin ars 3x, lecithin 3x, FP 3x, Alfalfa mother tincture, Tuberculinum*, should be repeated once in 15 days or on month.

*Bacillinum* – No mental symptoms.

**Key note:**-Cough continuous no phlegm can be brought out that is called emphysema condition. Soon use of dosage, the phlegm will be cut and comes out.

**Typhoid or pneumonia:**-Burning in chest intense cool water relieves during, but brings out unbearable chill. Cough, rises in temperature. Traces of blood in spitting, restlessness, vomitings.(*Phosphorus* 30) Recurrence in every monsoon. Next dose *Tuberculinum* 30.

1)Little sweat below the neck a few minutes after a bath whether of cold water or warm water.

2)Sneezing when sweat disappears.

3)Continuous sneezing when exposed to early morning breeze whether winter or summer – *Tuberculinum* 200.

14)Copious sweating as if bathed, suddenly a few seconds after the first nap. (*Sulphur, China*)

#### **IV.Causation:-**

1.Over use of quinine.

2.Malnutrition for a long time.

3.Continuous fevers.

## PSORINUM

**Introduction:-**It is one of the very deep acting remedies that employed to complete the treatment of any chronic disease when all the medicines including Sulphur fail to act.

It should not be given to cure psora, but should be employed only when the similar totality is found.

It is indicated with weakness at its keynote.

### **I. Constitutional Symptoms:-**

1)Debilitated one who doesn't find enthusiasm in the inevitable minimum of his daily routine. Every minute he feels like going away from activity leaving the presence of people and lying down on his back and shut the ventilation of the room. He does anything without energy to do it.

2)His skin is dirty, uncleaned, greasy and smelling like rotten meat or eggs.

3)His sweat, urine, stool and eructations smell very bad to himself and those who are near him.

4)Often he is covered and his traditional dress includes many garments even in summer.

5)The hair appear dry though oil is applied and combed. It is not obedient. It falls on all directions, it becomes thickly and matty. The nails becomes bad and get distorted in many ways.

### **II. Mental Symptoms and Modalities:-**

1)Hunger with headache. Headache < on hungry. > eating / 10-11 AM. *Sulphur* other times *Psorinum* especially in the evening and night.

2)All the symptoms of *Sulphur* except the above.

3)All the symptoms of *Apis* except he is chilly, dreads chill, colder, cover himself.

4)All the symptoms of *Phosphorus* except for craving for cold drinks etc.

5)The above 3 indicated drugs fail to cure.

6)Annual recurrence of acute or chronic troubles with

a)Skin troubles, asthma < in winter, > in summer.

b)Digestive troubles, urinary troubles, burning pain, headaches, gastric troubles < in summer.

i)Children > during day time. < throughout the night (*Jalapa* 200 – *Lycopodium* 200).

ii)By cold weather, from continuous work

Physical or Mental work:-

7)Itching < by coming home getting undressed (exposure) (on the indication to *Sulphur*).

8)Weakness < from hunger, > lying on the back with hands stretched away from the body.

9)Acute diseases (Typhoid, Cholera). Indicated remedies.

Recovery period (Tonic, rest won't work) even *Sulphur*.

Weakness lingers for months, sweats least exertion, indigestion, false hunger, lingering cough, gas in stomach, feels puffy, suffocated, can't breath, stool, flatus, eructation smell like rotten eggs, stool many times in a day.

10)Psoriasis (చెర్మము మీద patches) గుడ్డ మీద సగ్గు బియ్యం వడియాలు తీసిన తరువాత ఎల ఉంటుంది అలాగ ఉంటుంది.

< in winter – *Psorinum* 10M.

< in summer – *Apis*, *Arnica*, *Thuja*, *Anacardium* 6 minimum period of cure in 5 years.

11)Excessive pus, yellow or milk white (*Calcareo sulph*, *Hepar sulph*)

12)Pus and boils:- Ants attracts pus. Pus, boils, dandruff, sweat – smell like rotten eggs or rotten meat. In menses troubles if it smells like this give *Psorinum*.

13)Diabetes – *Apis*, *Psorinum*, *Sulphur*, *Phosphorus*, *Pulsatilla*, *Natrum sulph*, *Thuja*, *Medorrhinum*, *Argentum nit*, *Sygizium jambolinum*, *Cephalandra indica* 6.

### III.Causations:-

a)Supressed scabies, asthma, weakness, sweating, heat growth, cancer.

b)Continuous over drugging.

c)Small pox, Chicken pox wrongly treated.

### IV.Relationship:-

1)Use any drug and then give *Psorinum*, *Sulphur* is useless when used after *Psorinum*.

2)All acids and animal poison drugs shouldn't be used before or after *Psorinum*.

3)*Apis* is inimical to *Psorinum*.

## AURUM MET

### **Introduction:-**

It is an antisyphilitic remedy. Deep acting, long acting, constitutional remedy completes cure – Mineral drug (Gold).

### **I.Pathological Symptoms:-**

- 1.Headache.
- 2.Bodily pains.
- 3.Ulceration of mouth and throat.
- 4.Numbness of parts.
- 5.White patches on the skin.
- 6.Paralysis.
- 7.Gangrene.
- 8.Leprosy.
- 9.Heart complaints.
- 10.Obstinate boils.
- 11.Hair fall.
- 12.Bleeding of gums.
- 13.Palpitation. (*China*)
- 14.Extreme weakness.
- 15.Emaciation.
- 16.Leucorrhoea.

### **II.Constitutional Symptoms:-**

Melancholic despondent, doesn't like company, suicidal tendency, weeping disposition.

### **III.Mental Symptoms:-**

- 1.Wants to commit suicide (Key note)

2. Feels neglected.
3. Quarrelsome nature.
4. Always weeps for nothing.
5. Religious melancholy.
6. Greatly hurried about the mental and physical activity.
7. Self condemnation.
8. Sensation as if heart stood still.
9. Despair of recovery.
10. Religious insanity. Thinks that she has committed sin.
11. Inferiority complex.
12. Sees dark side of everything.
13. Doesn't reveal symptoms.

**V. Modalities:-**

- 1) < of all the symptoms after sunset and before sun rise.
- 2) Pains very severe and with a sensation of gnawing – *Syphillinum*.
- 3) Hemiopia (sees only lower half).
- 4) Burning sensation of skin.
- 5) Over sensitive, least contradiction leads to grief. (*Staphisagria, Pulsatilla*).
- 6) < All symptoms by cold application. Cold air or exposure.
- 7) Foul breath and excessive salivation.
- 8) Fatty degeneration of heart.
- 9) < all symptoms when getting cold.
- 10) > by warmth.
- 11) < by winter.
- 12) < by lying down.
- 13) Exhaustion, breathlessness, pain in cardiac arch.
- 14) Swelling especially in feet.
- 15) Offensive discharges.
- 16) Palpitation.

17) All complaints < during menses.

18) Feeble pulse.

19) Numbness of parts, benumbed parts with loss of sensation – *Cocculus indicus*.

#### **VI. Causations:-**

1. Bad effects of mercury.

2. Ailments from fright, contradiction, mortification (self torturing) and vexation (*Staphisagria*).

#### **VII. Relationship:-**

It follows and followed by *Syphillinum*.

No inimicals.

## **Calotropis gigantea**

#### **Introduction:-**

It is very strong antisyphilitic and very deep acting remedy. This can be called as a vegetable mercury. Very deep ulcers and wounds which declared incurable and are named as cancer, gangrene etc. Where many of the indicated drugs fail to work *Calotropis* comes into action.

#### **I. Pathological Symptoms:-**

1. Leprosy.

2. Piles.

3. Elephantiasis.

4. Filarial fever high 104-105°F with chills with shivering, chills alternates with flushes of heat.

5. Restlessness – Swelling of glands in groins or axilla. Redness of parts, pain full. (*Phytolacca*).

**Ars alb**:- Attack appears every alternate day or every week, intense fear of death between 2-4 PM, 200, 1M with cold sweats. 12 noon to 12 PM *China* 30, 200.

**Iodium**:- Intense craving for cold water and sprinkling cold water on the body, lies on the cold surface uncovered, glands very painful, very hard. 200, 1M.

6. Gangrene.

7. Cancer.

6.Syphilitic ulcer.

7.Enlargement of spleen.

8.Ascites.(*Apis, Acetic acid, Aegele folia, Boerrhavia diffusa* 6).

9.Inflammation of eyes due to plant poisons, chronic skin eruptions of syphilitic nature, syphilitic eruptions black itching < during night.

## **II.Constitutional Symptoms:-**

Constant suffering with incurable ailments. No drug can show any action.

## **III.Mentals:-**

Great depressed state of mind, extreme feeling of tiredness, dullness of mind, dizziness and confusion of mind.

## **IV.Modalities:-**

1) < from 11PM.

2)Headache throbbing < evening.

3)Cheeks burn like fire.

4)All symptoms < during night.

5)All symptoms < cold weather and exposure to cold.

6)Thickening of ends of nails, bad nails.

7)Very foul smell in the effected parts. Soreness of mouth and bleeding gums.

8)Constant eructations with foul smell.

9)Restlessness and tossing from one side to the other.

10)Pains > by coffee.

11)Frequent chills passing up spine.

12)Movement of feet < chills.

13)Intense burning in anus (*Nitric acid*). This can be cured in 6 potency only.

## **CARBO VEGETABILIS**

## **Introduction:-**

One of the deepest drugs, enters deep into the action of life cure. It has a particular hold over the vascular system.

## **I.Pathological Symptoms:-**

- 1.Varicosity
- 2.Postsurgical cases of debility.
- 3.Ulcers without repair (black, blue).
- 4.Bed sores.
- 5.Gangrren (black) with cold – *Carbo veg*, hot – *Lachesis*.
- 6.Septic condition.
- 7.Headache (Occipital headache). If keeps the head lower portion it will >.
- 8.Liver troubles with lot of gas formation (With eczema or ring worm). (*Graphitis, China, Lycopodium*).
- 9.Confirmative test – Pus in ear, pains and skin troubles.
- 10.Lack of reaction with the above symptoms (*Sulphur*).
- 11.Ear troubles linked with digestive troubles.
- 12.Symptoms confused (*Nux vomica, Pulsatilla, Sulphur, Sepia, Carbo veg 200*).

## **III.Constitutional Symptoms:-**

- 1)Sluggish (Organs doesn't function properly) lazy, distended, swollen, suffocated, limbs feel dull heavy.
- 2)Burning and itching of the skin, scalp, axilla, folds of the skin (Circulation feeble) body smells (like burning of hairs), sweat smells, blood oozes from mucus membrane passive haemorrhages, blackish – bluish menses to prolong, goes fatty, folded, lazy. Frequent ulceration of the mouth and throat.
- 3)Head often heavy and dull. Many times he cannot think over properly (loss of blood flow to the head) exhaustion type of headache (Occipital). Eyes do not allow continuous reading, soon out of focus. Hair falls and eruption form on the scalp.
- 4)The person is lacking in self-confidence, fears to travel alone, cannot sleep alone in a room, cannot stay in darkness, eyes become lusterless. Sweat much on his forehead. Wants others not to disturb him. Want to relax and doze.
- 5)Frequent discharge from the ear, earache, they continue long since.

6)Suffers from chill because the nose is blocked. Body heavy and joints painful. He is unhappy when he is exposed to heat. Running of nose, ears and gets heated, suffocated, bloated, respired, exhausted, always requires cool air and fanning (cool air to all carbon drugs).

**Carbon drugs:-***Graphites, Carboneum, Sulphur, Natrum carb, Carboic acid, Carbo veg, Carbo animalis.*

7)Often disorder stomach, often craves coffee, acids, sweet, salt, aversion to milk to meat.

8)Too much of flatus produced .

9)Eructations burn or flatus continuous for some hours.

#### **IV.Mental Symptoms:-**

1)Slow to think, slow to understand, cannot rouse their desire to do anything, “can’t feel happy or unhappy of any incident.” “*Sepia*” He knows but he can’t love his wife and children. Lack incapacity in love (*Puls*)

2.Great fear and anxiety in darkness.

3.Uter indifference towards persons and incidents.

4.Can’t plan anything, can’t decide.

#### **V.Modalities:-**

1)Complaints come slowly and settle forever to produce acute diseases of immediate danger.

2)Stimulating foods makes him inspired and immediately exhausted.

3)Burning of various parts objective coldness. Subjective heat make him crave for fan.

4)Cold sweat, cold breath, cold nose, blue skin, blue nails, and a great craving for fan. (Collapsing picture.)

5)Parts easily bleed, bluish blood in a feeble manner.(Opposite to this is *Secale cor.*)

6)Anxiety suffering, jerking and kicking in sleep.

7)Headache > drawing head back.

8)- i)free discharge makes herself better.

- ii)heat makes him feel better.

- iii)suppression of all discharges and < all pains from getting cold.

9) > of all troubles from physical and mental rest, < especially from mental work.

**Important:-** Mumps are suppressed to change place. It may lead to breast glands or testes (*Carbo veg, Phytolacca, Pulsatilla, Lac can, Calcareo phos.*)

10)Distension of abdomen with gas > belchings and flatus (*China* – no relief by belching or flatus.)

#### **VI.Modalities:-**

- 1.H/O Typhoid, malaria, pneumonia, smallpox or measles.
- 2.Bad effects of surgery.
- 3.Living constantly near stagnated areas and factories.

#### **VII.Relationship:-**

Complementary to *China*  $\Rightarrow$  *Calc carb, Graohites, Sulphur*.

*Carbo veg* and *Carbo animalis* are inimicals. Shouldn't be used before or after *Coffea*.

## **CHINA**

#### **I.Pathological Symptoms:-**

1.Weakness, heart disease, liver troubles, jaundice, hydrothorax (Jaundice – *Pulsatilla 6, Nux vomica 30, Chelidonium, Merc sol 6, Leptandra, Crotalus, Phosphorus, Lachesis, Lycopodium, Helleborus*.)

For those who born with janduce (*Nux vomica 6*) to be given 2 or 3 doses daily.

*Leptandra*:-It is similar to *China* when the motion is irregular, loose, blackish, when there is rumbling sound while passing motion. (There is no prominent symptoms in *Leptandra* except diarrhoea and constipation and during constipation the stool is tar like i.e., it is pasty, thick and black where as in *China* it is black, but it is watery or semisolid.

The first and foremost drug for jaundice is *Merc sol*. The jaundice case of *Phosphorus, Crotalus, Helleborus* are in fatal cases.

*Crotalus hor*:-Continuous blood in motion. Deterioration of eye ball, severe burning sensation in stomach. Too much burning in urination or dropsy or blood in urine.

*Helleborus*:-Stupidity, involuntary movement of one leg and one arm, the patient slides down the bed.

2.Sores (Especially in bed ridden cases loss of fluid, bed sores). *China 1M, 10M*.

**Note**:-Patient ఎంత weakness గా ఉన్న high potency వాడవచ్చును.

3.Septic fevers (*Ars alb, Hypericum, Zincum mt, Opium, Agaricus, Anthroxin, Lac can, Phosphorus, Scale cor, Thuja*).

Septicemia – *China 30, 200, 1M, 10M*.

Hahnemann dosage is to be used.

4. Gangrene.

5. Bloating, belching, flatus (suffocation). Suffocation not all better by belching or flatus (*Carbo veg*). throat burns when belching, anus burns when flatus is going.

6. Hic cough – *China*, *Carbi veg*, *MP 6x*, *Ignatia 30*, *Hyoscyamus*, *Belladonna*, *Cuprum met*, *Zincum met*, *Agaricus*.

7. Nausea – *Mag phos 6x*, *Cuprum met*, *Zincum met*, *Agaricus*, *Ipecac*, *Colchicum*, *China*, by smell or perfumes.

*Ignatia*, vertigo < all pains.

*Colchicum*:-Nausea and vomiting < by smell of cooking food.

**Note**:-*China* shouldn't be used for pregnant ladies.

8. Acidity:-(*China*, *Nux vomica*, *Ant crud*)

## II. Constitutional Symptoms:-

1) Puffy bloated face and extremities, pale yellowish (*Lachesis* – pale bluish), short breath.

2) Sweats cool and not feeling alternate in quick succession.

3) Feeble, sickly, lacking in stamina, loathing food, bad liver.

4) Body is sensitive to temperature, wind.

5) Irritable, nerves twitching, tearing pains.

6) Flatulence feels bloated (hot, suffocated (*Apis*))

*Apis* > cool breeze, cold watery washing.

*Carbo veg* – wants a powerful cold wind, copious sweat he wants fan in high speed.

*Apis* – Red face, *Carbo veg* – Blue face.

*China* - > cool breeze, cold water wash, > warm clothing, wants to be covered.

7) Bleeds easily – Nose bleed (*Ara alb*, *Phosphorus*).

8) Long history of malarial fevers and frequent use of quinine.

9) Broken down constitution.

10) Oedema, urine suppressed, yellow, burning.

11) Feeble heart.

12) Sleeplessness.

## III. Mental Symptoms:-

- 1)Lacking in courage, initiative, wants companies in journeys, likes to be at a place, dislikes change.
- 2)Weak minded, unable to think, lazy, unable to remember, feeble memory.
- 3)Full of fear about loneliness and about night, fear of animals. Dogs and especially creeping things.
- 4)Cannot read a book continuously, frequently speaks about wrong expression misplacing words.
- 5.Frequently dreams of strangulation. నిద్రపోతుండగ ఎవరో గొంతు పిసుకుతున్నట్లు కలలు.

#### IV.Modalities:-

- 1)Gradually increasing senility of (Opposite to the symptom *Natum mur*) body nerves, senses of mind.
- 2)Sensitivity of skin causes chills and shivering.
- 3)Digestion is easily disturbed with fruits.
- 4)Perspiration and palpitation with heart exertion.
- 5)Feels chill soon after sweat.
- 6)Pain causes cramps sometimes epilepsy like fit in children. (*Cuprum met*) A draft of air causes convulsion and also in ladies labor.
- 7)Veins become full in fever.
- 8)Sensitive to odours of flowers and tobacco. (*Ignatia* – vertigo, headache, *China* – nausea, vomitings, *Colchicum* – cooking odours.)
- 9)Dropsy after a haemorrhage కాన్పు అయ్యాక fever, chills, pains, headache వస్తే expulsion తిన్నగా అవ్వలేదని అర్థం. ఇటు వంటి సమయంలో *China* వెయ్యాలి. ఎక్కువ రక్త ప్రావమైనప్పుడు కూడా *China* వేయాలి.
- 10)Periodicity, pain, alternate day or 7 days. Any pain < during night, increase by midnight.
- 11)Sudden loose motion at 0' hour.
  - a)increases weakness.
  - b)all pains are relieved.
  - c)all pains suddenly <.
- 12)Stomachache < eating (*Nux vom*).
- 13)Darkness before the eyes.
- 14)Taste becomes acute. Nothing tastes natural. Bitter taste in the mouth often.
- 15)Dislike of every type food.
- 16)No relief of stomach symptoms with belching or flatus.
- 17)Complaints of periodical nature.

a)Annual recurrences.

b)Irregular repetition ( *China*, *Hepar sulph*, *Psorinum*)

18)Collapse. (Irrespective of any cause) Pulse feeble, beat missing, sweats alternate with heat, eyes half closed, loose motions *China* 30 – wait for 5 minutes. If there is any response and then again collapsing stage use *China*200. Again wait for some time, repeat *China* 1M if the patient is again collapsing after response. (After the above symptoms, blue face and nails, body cold, nose colder, breath short, feeble, cold sweat, wings of nose flutter, craves fanning – *Carbo veg* 30.)

(Body cold, pains in lower abdomen. No sweats at all. Eyes not being closed – *Camphor* 6. Response వచ్చి మళ్ళీ తగ్గితే repeat after 5 minutes the same dose of 6. Again another dose of 30.

**Collapse drugs** – 1.*China* 2.*Carbo veg* 3.*Ars alb* 4.*Phosphorus* 5.*Sulphur* 6.*Helleborus*.

**V.Causation:-**

a)Malaria ( *China*, *Ara alb*, *Chin ars*, *Chin sulph* 30 is safest potency in nosode drugs.)

b)Misuse of quinine.

c)After effects of haemorrhage – *China* 200.

d)Frequent colds ( *Tuberculinum*, *China*, *Nux vomica*.)

e)Liver troubles.

f)Sex excess.

c to f – loss of fluids *Acid phos* (Loss of courage, memory).

**VI.Relationship:-** *China* encourages the action of any drug when used before or after except *Digitalis* and *Selenium*.

*China* is highly inimical to *Digitalis*.

*China* is complementary to *Acid phos*, *Carbo veg* and *Crataegus* mother tincture.

## CALCAREA CARB

**Introduction:-**

It is an extracted from all the shells of oysters. It is a mineral drug. Polycrest, Deep acting, Long acting, Constitutional remedy. Can complete the cure. It is antipsoric, antisyphilitic, and antisycotic. It is one among the psoric trios.

**Note :-**

After *Lycopodium*, *Calcarea carb* shouldn't be given.

*Calcarea carb* shouldn't be followed by *Sulphur*.

**I.General Symptoms:-**

- 1)Indicated to both flabby, fatty and pale persons and emaciated persons also.
- 2)Emaciated from neck downwards, especially leg (*Abrotanum* – emaciation below upwards).
- 3)Tendency to effect all glands especially lymph glands which turn hard (Tubercular gland, this is due to sycosis and psora)
- 4)Emaciation muscles.
- 5)Late walking due to mal development of bones in the legs (*Natrum mur*, *Baryta carb*). Late learning to walk due to mental ill development.
- 6)Body and limbs are cold to touch and head is hot.
- 7)Sweat in various places, sweats in spots.
- 8)*Calcarea* patient is tired patient.
- 9)Persons who take on flesh without increase of weight, palpitation.
- 10)Children with emaciation, limbs, abdomen distended. (ఉబ్బరించుట.) like inverted, pale and anaemic.
- 11)Menses too early profuse and lasting too long period, copious and thick leucorrhoea, lasting all the time between the menstrual period.

**II.Particular Symptoms:-**

- 1)Tendency to pus formation and abscesses. The pus is absorbed or drained and the part is healed. (*Sulphur*, *Silicea* promote pus formation.)
- 2)Head – profuse sweating, sweat normal – psora, horrible smell – syphilitic, sweat smell, garlic smell – sycotic.

Periodical sick headaches. (once in a week or ten days.) Severe headaches < walking and talking. Burning on vertex and feet, but they are cold. Hair fall in patches – late closing of fontanelles – పేను కొరుకుట. (*Kali bishromicum*) and *Syphillinum* – they also shows particular spot in pain.

3)Eyes – I)Eye inflammation in fatty, flabby persons to exposure to cold.

II)Photophobia < by exertion. Dim vision.

III)All the eye symptoms are < by reading or seeing at one object.

4)Ears – yellow discharge, earache from cold weather.

5)Face – pale, anaemic, cold sweat on the fore head, lips, cracked and bleeding, swelling of salivary glands.

6)Nose and throat – cold attacks in every cold season. Sore throat – red, painful, ulceration of tongue and throat.

*Important:-*Dryness and choaking pharynx.

7)Stomach –Digestion slow in, the food remains in the stomach.

*Important:-*It turns sour, vomiting, no appetite. Abnormal craving for eggs even in children. Aversion to meat. Craving for chalk pieces, lime, raw rice etc.,

Craving for sand – *Silicea*.

Craving for coal, sand and sandy stones, pains – *Cocculus indicus*.

Craving for all abnormal things – *Ignatia*.

Even eats his own fecal matter. Flatulence.

8)Stool – In children milk passed as it is with sour smell. It excoriates the parts. Recurring watery diarrhoea in early cold season (*Dulcamara*). White chalky stool (in jaundice). Constipation, worms passing through stool and through mouth.

9)vocal cords – painless hoarseness – painful hoarseness – *Belladonna*, *Phosphorus*.

10)Respiratory system – rattling in chest, dyspnoeic < by walking and ascending, prolonged cough, spitting of blood, sweetish sputum. (*Stannum met*)

11)Extremities – rheumatic pains and stiffness. Feet are cold. Late walking.

### **III.Pathological Symptoms:-**

1)Exostosis – Extra bone growth.

2)Curvature of bones.

3)Cataract of eyes.

4)Cardiac weakness.

5)Hydrocephalus and microcephalus – head small it is congenital. It is incurable.

Acquired – formed in the middle organic – defect can be identified by x-ray etc.,

Functional – defect present in tissues.

6)Haemoptysis, coughing blood (from lungs through cough red colour)

7)Haematemesis – vomiting blood from stomach. (brown colour)

8)Epistaxis – blood from nose.

9)Haematuria – blood through urine.

#### **IV. Constitutional Symptoms:-**

Fat, flabby and pale persons who sweats easily and go out of breath on least exertion.

#### **V. Mental Symptoms:-**

1)Tries mentally, can't concentrate upon them.

2)Anxiety.

3)Easy excitement which leads to irritability.

4)Inability to apply himself.

5)Brooding upon mental weakness. Thinks that he is going to become insane. People will observe him and his mental weakness.

6)Thinks that people are looking at him suspiciously with all these ideas he will wake at night.

7)No one can convince him that he is not insane.

8)Thinks that he is crazy.

9)Can't concentrate due to deep thinking.

10)It is peculiar his total anxiety, restlessness and thinking are only about silly things with this anxiety he closes his eyes for sleep and to get rid of these things but he sees horrible things and grows restless until he opens his eyes.

11)Imagines that someone is walking besides her. This is common in females. (*Silicea and Petroleum*)

12)Lies and talks with people who are in memory, picks the fingers etc., but they are absent in the company of people. "Talks to herself" (*Anacardium*)

13)Sees dogs crowding around him and fights with him.

14)Nervous women feels that she would like to run up and down and scream.

15)Peculiar insanity is seen, a person who works hard, more industrious and his business runs to maximum and that time his mind suddenly changes, he stops the business and sits in the house.

16)Melancholy and low spirited – A girl of 9 years continuously thinks about future world, melancholic, thinks about angles, wants to die early and go there. (*Ars alb, Lachesis*), loathing of life, wants to read bible all the days (*Aurum met*) and does nothing.

17)Fear, hopelessness, fear of death and misfortune.

18)Children cross and easily frightened.

#### **VI.Modalities:-**

1)Chilly patient sensitive to cold air, storm and weather changes from warmth to cold. (*Rhus tox, Dulcamara*) (*Rhododendron*)

2)Can't endure any strain complaints from exertion, walking stairs etc., even though fatty. This exertion lead to profuse sweat and they go out of breath. (*Lycopodium, Cistus can, Carbo veg, China*)

3)Fatty, flabby people, fucus – *Graphitis, Rhus tox, Thyroidinum, Calcarea carb*. Man is called hydrogenoid constitution.

#### **VII.Causation:-**

1)Bad assimilation of calcium from food.

2)Complaints from worry, excitement and vexation.

3)Hysterical state from losing one of the nearest person i.e. husband, child etc.,

#### **VIII.Relationship:-**

Inimicals – *Calcarea carb* × *Sulphur, Bryonia, Baryta carb*.

Complementaries – *Belladonna and Lycopodium*.

## **ANTIM CRUD**

#### **Introduction:-**

This is sulphide of Antimony. Deep acting, constitutional remedy, polycrest and antisycotic drug.

#### **I.Pathological Symptoms:-**

Inflammation of liver with hardness, typhoid, jaundice with patient, liver and gall bladder area.

*Arnica* – పిల్లలు ఎత్తుకుంటి, పడుకోబెడితే ఏడుస్తారు.

*Chamomilla* – పడుకోపెడితే ఏడుస్తాడు, విరోచనము ఆకు పచ్చగా ఉండును.

*China* – మొండి పట్టుదల, బొడ్డు దగ్గర నొప్పి, విరోచనముతో నులి పురుగులు, పాములు, నాలుక రవ్వ జల్లినట్లుండును.

*Borax* – పడుకోపడితే ఏడుస్తారు. దించుతుండగానే ఏడుపు మొదలు పెడతారు. White stool.

*Pulsatilla* – No two stools are alike. Changes its color, > in sleeping, in open air.

*Acid lactica* –In children the tongue is white and in patches. Vomiting are like curds.

*Oscimum sanctum* – like *Chamomilla* children, but ఎత్తుకొనినా ఊరుకోరు. Green motion. *Oscimum sanctum* 6 1 dose will cure.

*Stramonium* – నిద్రలో ఉలిక్కి పడతారు. నిద్రలో అరుస్తారు. పళ్ళు కొరుకుతారు. మొండి పట్టుదల. Sore throat, vomitings ఉండవు.

## II. General Symptoms:-

**Very important:-** Any complaint is accompanied with the disorder of stomach.

- 1) Tendency to low, continued fevers like typhoid with weakness.
- 2) Prostration.
- 3) Sudden attacks of great weakness, fainting and exhaustion.
- 4) The gouty symptoms suddenly disappear and vomitings and stomach disorders set in. They will be cured only when gouty symptoms will reappear.
- 5) Tendency to throw out a milky white exudations or disposition especially on tongue. The white coated tongue accompanied with all the complaints.
- 6) Profuse sweats even by little exertion.

## II. Particular Symptoms:-

- 1) Nose – stuffing up of nose in hot room, chronic cold, stuffing < in nights accompanied with headaches.
- 2) Headaches when nasal discharge is suppressed. > from flow, not > by vomiting, < moving, < in nights, > by lying, open air, < warm room.
- 3) Stomach – vomiting, loathing of food, the smell and thought of food disturbs her. (*Ars alb*, *Colchicum*)
- 4) Throat – loss of voice after cold bath which is painless. Dry cough severe, first paroxysm, దగ్గు తెర, violent, second less violent, third least violent etc., accompanied with white tongue.
- 5) Constant nausea, fullness of stomach, feels lump in the stomach, feels that stomach is disturbed even though vomiting doesn't relieve. Diarrhoea like lumps, like water from sour wine. Diarrhoea ending in dysentery, vomiting of milk in children like curds with sour smell, stool is chalky white.
- 6) Dragging down feeling in pelvis in women, prolapse of uterus with white discharge.
- 7) Skin – ulcerated warts, bad nails, bad hair, hard horny excrescences (become hard) below the nails. Thickening of the skin of feet < by walking, warts grow upon hands, pustules.

### **III.Mental Symptoms:-**

- 1)Loathing of life and desires to die. This loathing of life is seen in girls also with chlorosis but it is hysterical. Chlorosis – It is a type of anaemia. It is otherwise known as “Green sickness”. In this veins are affected, oedematous veins are swollen and green in colour. It can be seen in girls between the ages of 14-25 years.
- 2)Over excitable, intense hysterical, nervous and ecstasy in girls by seeing the moon light.
- 3)Child is peevish (చిరచిరలాడుట) cannot bear to be touched or looked at doesn't wish to speak or be spoken to.

### **IV.Modalities:-**

- 1)Sentimental mood in moon light.
- 2)Rheumatic symptoms < in cold damp weather and cold bath > heat and hot water bath, < by sour wine and any stimulant.
- 3)All the physical symptoms < by sour wine.
- 4) < at night, damp weather, > by lying down, > applying heat, but < by overheating and radiating heat.
- 5)Complaints from open fire and sun. Example – Child's whooping cough is < by seeing open fire.

### **V.Relationship:-**

There are no inimicals to Antim crud.

Complementaries – Chronic of *Thuja* or *Medorrhinum*.

## **SEPIA**

### **Introduction:-**

It is obtained from the animal kingdom, prepared from the ink sac of cattle fish of sea. Poly crest, deep acting, long acting, constitutional remedy predominantly a remedy for women, rarely indicated in man. Antipsoric, Antisyphilitic, Antisycotic drug.

### **I.Pathological Symptoms:-**

- 1)Prolapse of uterus.
- 2)Cancer of lips.
- 3)Hysterical diathesis (tendencies).
- 4)Jaundice.

5)Apoplexy, cerebral haemorrhage or thrombosis or one sided paralysis in men, addicted to drinking and sexual excesses with a disposition to gout and haemorrhoids (piles).

6)Morning sickness.

7)Liver enlargement.

8)Prolapse of rectum.

9)All sorts of ulcerations and displacements in uterus.

10)Retained placenta.(acute)

## II. Constitutional Symptoms:-

1)Tall, slim women with narrow pelvis like that of a male. Women narrow pelvis is not fit to perform the function of conception.

2)Masculine tendencies.

## III. General Symptoms:-

1)Pale, waxy and anaemic with yellowishness as a general tendencies especially the face in yellowish mottled, waxy, pale with brown spots and patches.

2)Progressive emaciation of the body and skin becomes wrinkled, person looks prematurely old. (జుట్టు కూడ పసుపుగా నెరయును.)

*Abrotanum* – the child looks like old man due to chronic diarrhoea.

*Acid phos* - a)Loss of important fluid.

b)Looks like old man due to weakness, but there will be no wrinkles in the body.

c)Mental weakness. (first)

*Acid mur* – First physical weakness then mental weakness due to severe diarrhoea.

*Natrum mur* – Prematurely old, *Abrotanum* chronic *Natrum mur*.

*Selenium* – Loss of sperm, looks predominantly old.

3)Ravenous hunger, not relieved by eating.

*Iodium* – Ravenous hunger but emaciates. Thyroid over functioning craving for cold things.

*Thyroidin* – ఏమి తినక పోయినా లావు ఎక్కును.

*Psorinum* – Midnight hunger.

*Tuberculinum* – ఆకలి లేకుండా వుండును. లేదా అతిగా ఉండును.

4) Dragging down feeling with prolapse of uterus. Patient always sits with crossed legs. (ఎక్కువ deliveries అయినప్పుడు వచ్చును.) No sexual desire, prolapse of uterus + excess sexual desire – *Murex*.

5) Milk like discharge from mucus membranes. Milky fluid in vomiting. Milky discharges from the nose in cold. Milky leucorrhoea excoriating and horribly offensive. This leucorrhoea sometimes takes the appearance of curd is thick and cheesy substances. (Syphilitic)

6) Greenish yellow discharges in another condition. (Sycosis)

7) Loss of taste and smell.

8) Craves for spicy, pungent and bitter things like beer.

9) Palpitation and great weakness with loss of affection. (deathly sinking) > eating palpitation – *Digitalis*.

**Important:-** Offensiveness another marked indication, offensive sweat, urine, stool etc.,

10) Abortions at 3<sup>rd</sup> month of pregnancy and red discharge appears at 5<sup>th</sup> month, 11<sup>th</sup> month dragging down feeling in pelvis.

*Sabina* – a) Threatening abortion b) shooting pain in the pelvis, we can stop abortion by *Sabina*.

**Note:-** The following drugs shouldn't be given to the pregnant ladies.

a) *China*, b) *Pulsatilla*, c) *Silicea* – it will lead to abortion.

If the above medicines are given unfortunately, then give *Sabina* abortion will be stopped.

In the delivery it is not complete then give (difficult delivery) *Pulsatilla*. It will give easy delivery. If the above patient is weak, drowsy then give *China* – easy delivery.

If the pains are stopping and again coming then then give *Nux vomica* 200 or 1M because it is an antiperistaltic drug. To prevent tetanus give *Viburnum* 200 1 dose or 2 doses వాతలక్షణములున్న ఎడల కడుపులో వున్న పిల్ల వాడు తిరగక పోయినా *Pulsatilla* 200 1 dose ఇస్తే easy delivery అవుతుంది.

11) Tired, exhausted, twitching of muscles after coition. She cannot endure coition.

Same above condition but with intense sexual desire, proud, superiority complex thinking herself as superior being *Platina*.

12) Sleeplessness and full of dreams.

13) Menses either scanty or copious – dysmenorrhoea – painful menstruation.

In mother after nursing period of child is over she should get her normal menses (at 6<sup>th</sup> month). But it doesn't appear. She runs down, emaciates then give *Sepia*.

Establishes the flow (*Calcarea carb* has the opposite condition – menses appears in the nursing period.)

14) Impotency in males and lack of sexual feeling in the female impotency. They cannot perform the act of coition. There is no possibility to have children.

#### IV. Particular Symptoms:-

1) Face – puffed, smooth and rounded pale lips and ears.

Constipation – difficult stool like sheep dung, alternating diarrhoea and constipation.

2) Violent dry cough with rattling in the chest. This cough is < in first sleep – *Lachesis, Chamomilla*. Dry cough from evening till midnight. Holds chest while coughing (*Bryonia, Natrum sulph, Phosphorus*), loses urine while coughing (*Causticum*), urine passes while laughing.

3) Skin eruption – vesicular and pustular eruptions, the face is yellowish and sometimes it bleeds, the part is purple.

4) Violent periodic headache which involves the whole > by lying down and highly perfectly quite, < by normal movement, but > by violent movement. Eruptions on the head with falling of hair.

5) Agglutination of eye lids, pustules and granules on eye lids.

6) Thick, yellow, offensive pus from ears. Pus suppress అయితే మాటలు రావు. (*Merc sol*) 8 ఏళ్ళ పిల్ల వాడు, 4 ఏళ్ళ పిల్ల వాడులాగా balance.

7) Yellowish, green mucus from nose with loss of smell.

8) Toothache from taking cold things (*Chamomilla*).

9) Sensation of lump in the throat (In *Lachesis* it is > by swallowing).

10) Stomach – sour and bitter eructations of food, vomiting of bile, food and mucus. Hungry empty – all gone feeling in stomach, not > by eating, constant nausea < in morning. Vomiting of milky fluid. Aversion to food and smell of cooking. (*Colchicum* and *Ars alb*)

11) Burning sensation in chest or heart, burn and burning eructation.

*Phosphorus* – has ravenous hunger but > eating.

*Ignatia* – Has that hunger and all gone sensation in stomach always sighing (నిట్టూర్పు), cannot get rid of that feeling.

*Oleander* – Has all gone empty feeling as if he will die not > by food. Food is not digested, but passes undigested next day. *Kali carb* – has this feeling < by eating.

12) White stool.

13) Pain in the stomach with burning sensation, pain < by vomiting. Brown spots on abdomen. Flatulence.

14) Chronic diarrhoea – with copious jelly like yellow or yellowish white mucus which is offensive. (*Sepia* is similar to *Kali bichromicum* and *Colchicum*. In acute diarrhoea and dysenteries. Ineffectual urge to stool (*Nux vomica*), worms in stool.

15) Involuntary urination when child goes to bed, urine passes while laughing, coughing and white, milky, offensive urine bloody. Greenish deposit in urine which is hard to wash off, acute pain in kidneys.

16)Thick, acrid, milky, leucorrhoea in little girls.

17)In males profuse, yellow or milky, offensive and painless gonorrhoeal discharge from urethra.

18)Warts on genitals.

19)Severe pain in the waist < by slow movement, violent exercise and planning hard things against the waist. Doesn't > by lying (in *Natrum mur* lying on the back >). Backache < by kneeling.

20)Numbness, coldness of feet and hands, offensive and profuse cold sweat to the feet and hands. Soreness between the toes, swelling of feet > by walking.

#### **V.Mental Symptoms: \_**

1)The capacity to feel natural love is lost, loss of love and affections.

2)Excitable and suicidal nature.

3)Melancholy (విచారము) sits and says nothing. Taciturn (మితభాషి), answers questions with monosyllables when pressed to answer.

4)Absence of joy, no affections for delightful things of life and all things seen strange.

5)Worse in company of people, yet can't be alone. She is spiteful. Expresses it on best loved ones.

6)She doesn't permit opposition to her opinions.

7)Stupid and dull forgetful and thinking slowly.

8)One minute weeping, next gentle, sad, yielding, next excitable and obstinate, one can't know what she is going to do next.

9)No mental endurance (సహనం) makes errors in saying. Can't be trusted, fear of ghosts.

10)Delirious of some figures, dead friends or other forms of religious belief.

11)Illusions – భ్రమ – ఒకటి చూసి మరియొకటి అనుకొనుట.

Hallucinations – లేనిది కనబడుట.

Delusions – మాయ, భ్రమ, భ్రమ మీద నమ్మకం.

*Strmonium* – చనిపోయిన వారు కనపడి రమ్మంటున్నారు అనును. ఇది fever లో delirium.

12)Always insulting others. (*Sulphur*)

13)Fear of poverty and insanity (*Calcarea fluor*) అడుక్కు తినవలెనని భయం.

14)Easily frightened.

15)Peevish and feels mortified. (అవమానం)

16)Greatest irritability from slightest causes and disposed to scold.

17)Easily offended. She doesn't work.

18)Aversion to the opposite sex in both males and females. (*Pulsatilla*)

19)A lady thinks that she indulged in sex which is unreal.

#### **VI.Modalities:-**

1)< by noises, excitement and company. Both physically and mentally aggravated.

2)The smell of cooking food, meat and both causes mania. (*Ars alb, Colchicum* – food పేరుచెప్పినా, boil అవుతుండగా చూసినా nausea.

3)Tuberculosis condition after suppression of gonorrhoea.

4) < by ordinary movement, > violent movement.

5)Headache > by lying down and keeping perfectly quite.

< by mental labor, < after short spell of sleep.

> after well and substantial sleep.

> by tight bandage. (*Bryonia*)

6)*Sepia* complaints are < in open air but in > in open air when it is combined with violent exercise.

7)*Sepia* has occipital headache < on beginning to move. (*Phosphorus*), > sleep, but continuous rapid movement, < bilious headache, > after vomiting. (*Sanguinaria*)

8) < in the first sleep.

9)Palpitation by sleeping on left side, < in sleep, < before and during menses, during pregnancy, change of weather, thunderstorm over whelming fear, from cold air and > by warmth and violent exercise.

#### **VII.Causation:-**

Generally this mental state of *Sepia* women is brought out during confinement, after uterine and other haemorrhages, after prolonged indigestion. Pallor and enfeeblement of both body and mind. Women who nurses on over vigorous child or twins, women who has an over vigorous husband excess sexual excitement and over indulgence in sex brings her to this condition. Malaria suppressed.

#### **VIII.Relationship:-**

*Murex* also the empty, all gone feeling in the stomach, prolapse of uterus, dragging feeling in stomach. Sitting crossed legs, but with profuse menstrual flow and intense sexual desire while *Sepia* patient has aversion to sex life.

#### **Important:-**

In complicated cases of malaria think *Sepia, Ars alb, Sulphur* and *Calcarea*. But not *China* and *Natum mu*

## MEDORRHINUM

### Introduction:-

It is a deep acting, long acting, constitutional remedy. Prominently antisycotic remedy. Prepared from gonorrhoeal pus. It is a nosode.

### I. Constitution:-

1) Pale, waxy, young man who craves for tobacco, who are sensitive to cold air, become stiff after exertion and walking, who perspires easily and extremely sensitive to cold and are not well since gonorrhoea was suppressed.

2) Persons emaciated, anaemic and grow sensitive to cold. Obstinate cases of rheumatism who loose flesh, walk stooped, stumble (అడుగులో తడబడుట) and looks as if going into consumption. (T.B. రాబోతుంది)

### II. Causation:-

Suppressed gonorrhoea, the man after suppression suffers from emaciation, weakness, paleness, his wife contacts this miasm from him, she emaciates, menstrual disorders begins and sometimes she grows sterile, even though her health was good. Children inherit this miasm from father, they emaciate, asthmatic tendencies or diarrhoea, develop and they grow problematic to the treatment.

### III. Mental Symptoms:-

1) Startling from slightest noise feels faint and wants to be fanned.

2) Forgetful of figures, names and what he had to read. Makes mistakes in writing and talking.

3) Time moves too slowly, everybody moves too slowly.

4) He is in constant hurry in such a hurry that he goes out of breath. She is in a hurry that she feels fainting.

5) Confusion of mind, loses the idea while speaking, great difficulty in stating her complaints as she forgets.

6) Thinks someone is behind her. Hears whispering, sees faces that peep at her from behind the furniture (*Phosphorus*), everything seems unreal (*Alumina*) (*Anacardium*, *lac can*).

7) Weeps when talking. Changeable state of mind, one moment sad and next happy.

8) Pre sentiment of death. (*Aconite*, *Ars alb*, *Arnica*)

- 9) Fear of darkness.
- 10) Anxiety about her salvation.
- 11) Sees imaginary objects.
- 12) Imagines that he hears voices.

#### **IV. General Symptoms:-**

- 1) Children emaciated with asthmatic tendencies or dwarfed or ring worm on face and scalp or diarrhoea.
- 2) Trembling and quivering (పణకుట), steadily growing weakness.
- 3) Intense formication all over the body (creeping sensation).
- 4) Cold and pulseless with cold sweat.
- 5) Oedema of the limbs with great soreness and dropsy of cirrhosis sac. (pleurisy etc.)
- 6) Ravenous hunger even after eating.
- 7) Unquenchable thirst.
- 8) Craves for stimulants like tobacco, coffee, tea, sweets, green fruits, ice, sour things, oranges and salt.
- 9) Painful and profuse menses, cutting pain like knives in the whole pelvic region.
- 10) Difficult respiration.
- 11) Suffocation and short breath by exertion, dry cough with rattling in chest. Great heat and burning in the chest. Many sharp pains in the chest < damp weather.
- 12) Dyspnoea, palpitation and pain in the cardiac area < movement, burning sensation in heart extending to left arm.
- 13) Sharp, stitching pains in body.
- 14) Can sleep only on the back. Sleeps on her knees with face forced into pillow. Terrible dreams of ghosts and dead people. Sleepy, can't sleep (*Opium*). Copious night sweats.

#### **V. Modalities:-**

- 1) Mental symptoms are < at night.
- 2) Wants open air. Extremely sensitive to cold, damp weather.
- 3) The stitching neuralgia, pains are > by heat.
- 4) Vertigo > by lying, < by movement, fear of falling.
- 5) Sharp wandering sudden head pains < damp cold weather, < light coughing, movement.
- 6) Clawing గోళ్ళతో చీల్చుట, pain in stomach < by drawing up of the knees.

- 7) Cough < at night, > lying on abdomen, < in warm room.
- 8) Chest sore to touch < by breathing.
- 9) Some pains are < by movement and some pains are > by continuous movement.
- 10) < by sun, by warmth of bed and warmth of room. Some complaints are < from sun rise to sun set.
- 11) Rheumatic pains > near sea.
- 12) Early morning < 3-4 AM.

#### **VI. Particulars:-**

- 1) Flickering before the eyes. Blurred vision, black or brown spots on vision. Objects look double or small. Pain in the eyes. Sensation of sand and sticks in eyes. Agglutination of lids.
- 2) Hearing impaired, total deafness.
- 3) Obstinate cold with loss of smell. Itching and crawling sensation in nose. Bleeding from nose.
- 4) Rheumatic pains and stiffness in salivary glands and teeth area when chewing, sore mouth.
- 5) Nausea after eating and drinking, sour and vomiting.
- 6) Scanty, strong high colour, smelling urine. Inflammation of prostate gland copious mucus in urine, bed wetting.
- 7) Impotency in young men who have the H/O suppressed gonorrhoea.
- 8) Rheumatic symptoms after suppressed gonorrhoea.
- 9) Chronic pain in ovaries, sterility, obstinate leucorrhoea.
- 10) Pain in waist, shooting downward, stiffness in back on raising or beginning to move, pain in nape of neck and near shoulders.
- 11) Chronic rheumatic pains in limbs < in cold, damp weather. The limbs are stiff, cold extremities, burning sensation of palms and soles and wants to be fanned. Numbness of hand more than left side. Restless in legs, must move constantly (*Zinc met*), legs swollen up to knees. Sore bruised legs, ankles and soles. Tenderness of soles with blueness,

#### **VII. Relationship:-**

No inimicals.

## ZINCUM MET

### Introduction:-

It is a very deep acting drug and well proved drug. It has symptoms of every part of the body. (*Ars alb*)

### I.Pathological symptoms:-

- 1)Epilepsy of long standing nature while has its origin in brain fever. Encephalitis, Smallpox, Chickenpox, measles suppressed.
- 2)Paralysis – It may be one limb or part of the body. Gradually developing within 5-6 years. Cold, numbness, withered skin, dry, having the H/O long standing disease.
- 3)Progressive emaciation and having the same history as above.
- 4)Idiocy (జడత్వం), not congenital – congenital అయితే *Baryta carb, Bufo, Belladona* 10M or 50M.
- 5)Progressive unconsciousness (typhoid). *Zincum met* should be considered in such cases చావనీయదు. 1M OR 10M.
- 6)Insanity – repeat outwards.  
Mania – with history as above.
- 7)Typhoid and after effects of typhoid.
- 8)Deep seated brain trouble (త్రాగినవి వాంతులగును).

### II.Constitutional Symptoms:-

1)Functions very slow. (పిల్లలగ అస్సలు ఆడరు లేదా slow), fevers low – vital force is very sluggish, cold, asthma, eruptions are very slow, paralytic weakness in the limbs, drawing pains in the limbs along the nervous.

2)The person is nervous and excited, over sensitive to persons mainly he can't stay without moving, except when he is sleeping, fidgety all over. (*Belladona, Agaricus, Apis, Natrum mur, Ignatia, Hyoscyamus, Anacardium, Cuprum met, Aurum met, Arg. Met, Arg.nit, Stannum met*). They are predominantly fidgety drugs.

This drug is predominantly fidgety in feet, sensation of dribbling of urine, is controlled when the feet are moved.

Jerks in any part of the body or nucleus in spine. (*Agaricus*) twitching, crying in sleep. Bites the teeth. (Fits లో ముందుగ వంగే వాళ్ళను tonic spasm అంటారు. ఊరికే వణుకుతూ వుంటే clonic spasm అంటారు. వెనుకగ వంగుతుంటే opisthotonus అంటారు. Very dangerous – *Cicuta virosa*.)

3) In tetanus opisthotonus is dangerous as it will press the heart and cause death ఒక వేలు మాత్రమే (finger or toes) పడితే *Stannum met*. Salivation will be sweetish when he is having cough in night. Cramps frequent, cramps in calf muscles, *Rhus tox*, *causticum* and fits.

4) Girls do not mature or late – they are going to emaciation. It will lead to chorea. Jerks, భంగిమలు, soreness in the back of the neck, burning of the spine, styes, dry eruptions.

5) Feeble action i) fever or cold attacks very slow and becomes incurable. (30 or 40 days)

ii) eruptions (measles, chicken pox, small pox) come very slow, low fever (101°F), toxic condition (drowsy), semiconscious, vomitings, cramps in fingers, during fit always fidgety goes into convulsions, sore throat – cannot swallow anything, (it is a fatal case) goes into unconsciousness. Then give *Zincum met* 200 1 dose.

6) After administering the drug – he gets for (All nerves gets ants crawling sensation), then he will cry, shriek night and day he makes violent movements of all the parts of the body. He gets vomitings, again high fever, eruptions come out. Then saved. In the above condition drug shouldn't be changed, otherwise he will die. కేకలు వేయక పోతే (12 hours) లో *Sulphur* 200 వేస్తే reverse order లో అన్నీ వచ్చి save అగును. If the drug is neutralized give *Zincum met* 1M 1 dose (calm గా ఉండకూడదు.)

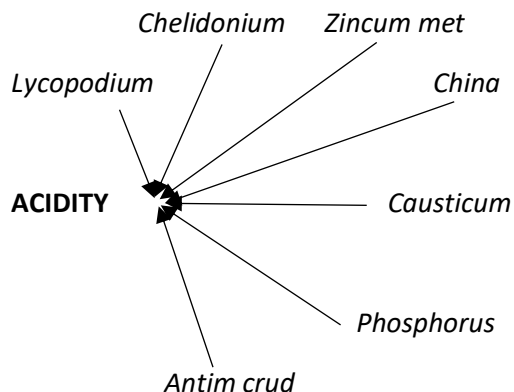

In such patient somehow survives without *Zincum met* and without eruptions, he will be lifelong defective patient. Treat with *Zincum met* only.

7) Docile, feeble, poor understanding, poor memory, no capacity to study, irritated when insulted.

8) Slow digestion – food content stay in the stomach for very long time – Acidity, sour vomitings, sour eructations, oils and potatoes and sugar disagrees.

9) Rectum packed with stool, bladder full of urine – feeble expulsion. Very sluggish (*Opium*, *Alumina*, *Causticum*) చిన్న పిల్లవాడు రెండు రోజుల వరకు ఒంటిలు పోయక పోయినా, కడుపు ఉబ్బరించినా *Causticum* వేస్తే 2 minutes లో urine అయిపోయి relief ఇచ్చును.

10) Numbness and pain in soles – (*Antim crud*, *Causticum*, *Lycopodium*) sore while stepping.

Skin wrinkled, face pallid (పాలిపోయిన), No – in face, fingers out of shape.

### III.Mentals and Modalities:-

1)Very sensitive to surroundings. Restless in the presence of persons, specially sensitive to noise. Noise passes through every nerve of the body. The sound of a paper irritates him. (*Nux vomica*)

**Important:-** Inimicals – *Zincum met* × *Nux vomica*

*Phosphorus* × *Causticum*

2)Suppressed urine, suppressed stool, suppressed eruptions, stupor, unconsciousness and continuous rattling of head, long fevers, typhoid etc.

3)Vomitings, convulsions, chorea, laughing, screaming, moaning, weeping in typhoid etc.

4)a)Urine slow in starting (Chronic condition in elders).

b)Can pass urine only sitting and leaning back (old debaucher), old gonorrhoea, prostatitis (anus)

5)Aching in dorsal, lumbar, sacral regions > walking, < raising.

**Important** – The patient is chilly < in chill, > in warmth. Pains are greatly < when exposed to cold weather (*Nux vomica* > in headache with cold weather.

6)Pains along many nerves (*Zincum met*) – *Rhus tox*, *Causticum*, *Aconite* – As if hot needles are inserted, formication.

7)Tension and stiffness of muscles, nerves. Tendons and ligaments బిగుసు కొని పోవును.

*Rhus tox* paralysed parts painful – వేళ్ళాడుతూ వూపుతూ వుంటాయి.

8)Drawing above the eyes (నరాలు లాగుట), pains in eye balls < looking side wise, progressive strabismus మెల్ల (congenital మెల్ల కాకపోతే *Zinc met* or *Acid phos* dosage 200 doses in 2 months will cure). Chronic strabismus – typhoid (high fever) if the patient belongs to *Zincum met* or *Acid phos* it will cure. Acute strabismus cause – diplopia. It may lead to progressive (double vision) paralysis.

9)Muscles of neck down. (treatment for one year) In many cases strabismus – *Acid phos* will cure. In chronic cases (*Causticum*, *Rhus tox*). In acute condition like typhoid or meningitis. The neck may be drawn back also. The patient continuously tosses his head either horizontally or vertically (he bores the head into pillow. The pillow feels back often or patient slides down from the bed. (*Zincum met*, *Helleborus*).

10)In acute condition the patient looks blank for a few seconds, when questioned, then he repeats the whole questions then he tries to answer in middle the sentence is broken.

### IV.Relationship:-

It shouldn't be used before or after *Nux vomica*. It is very good complementary to *Cuprum met*, *Helleborus*. It works efficiently after *Sulphur*, *Agaricus*, *Hypericum*, *Ars alb*, *Stramonium*.

#### **V.Causation:-**

1. Suppressed eruptions. (పొంగు, పెద్ద అమ్మవారు)

2. H/O broken health after vaccination or serum like polio, anti tetanus especially in triple antigen. Immediately give *Zincum met* 30 1 dose.

## **BAPTISIA**

#### **Introduction:**

It is used in septic condition and blood poison conditions.

It is an acute complementary remedy, sudden serious type of attacks where the patients are quickly decomposed and goes direct in death within few days.

#### **I.Pathological Symptoms:-**

1. Typhoids,
2. Septic fevers, zymotic fevers రక్తం పులియుట,
3. Peripneumonic fevers మహా విష జ్వరములు,
4. Scarlet fevers (dies within 48 hours)

#### **II.Mental Symptoms:-**

1) Within the first two days the mind is gone – he doesn't know what he is talking (involuntary talking). Confusion of mind. When aroused (గట్టిగా) he wants to say something utters word or two and goes into stupor.

2)Doesn't want to be disturbed. Delirium continuously, talking within himself. Sleeplessness, but semi consciousness, trembling all over the body.

3)Dual existence (ఒక కాలు మరియుక కాలును చేతులను కొట్టు కొనును.)

**Key note** – “ one part fighting against other – *Hahnemann*. This is only drug of this type. అద్దం చేతికిస్తే తలతో కొట్టు కొనును.

4)Feels floating in air over the bed గాలిలో చేతులతో కొట్టు కొనును.

5)When unconscious he lies towards one side stretching his body in many curves. When delirious (conscious), lies on his belly and swims with his limbs, muttering and moaning.

### III.Modalities and Identifying Symptoms:-

1)Very rapid progress of an acute fever into a hopeless condition – *Baptisia* 200 1 dose (Maximum in life week days). Sudden, violent breakdown ending continued illness.

**Fever** – Sudden fever, stupor and prostration (మగత), face mottled, bloated, purple, sordos on teeth and gums. లేదా గీతలు ఉండును. తరువాత 48 hours చిట్లును. Gums split and bleed profusely. Abdomen bloated, mouth, tongue and lips become dirty, yellowish, horrible smell. Mouth bleeds and smell in of decomposed flesh. The whole room smells like that. Almost continuous delirium when he talks to himself. Talks as if much drunken. (*Lachesis*)

2)All discharges are putrid and pungent as if corpse decomposing.

3)Bleeding black and very offensive.

4)Deposits of dried blood on lips and gums.

5)Then watery yellow loose motions, sometimes involuntary, sometimes dark colour due to granules of blood. The stool smell in whole house.

6)Eyes painful, congestive, red. Ears and nose painful.

7)Burning heat in the face (subjective), critical sweat on face with wrinkles and collapsed appearance – (sweat will be very cold on face).

8)Tongue stiff, tasteless, ulcerated, yellowish, dirty, apthous, whole mouth is like cooked meat. Tongue hangs like ----- . Throat very painful, swollen, ulcerated, saliva ropy, thick and flows over the pillow, the whole condition is called “*Zymosis*”. *Baptisia* will do miracle and saves the life.

DOSAGE:-Fever వచ్చింది, సాయంత్రం లేవలేక పోతున్నాడు. అంటే *Baptisia* 30 1 dose, FP 6x. He will be better.

Next day if again deteriorating then give *Baptisia* 200 2 doses. It will cure.

It doesn't work in chronic cases, but it is a lifesaving drug in ulcers.

**Life Saving Drugs:-**Pyrogenum, Ars alb, Sulphur, Alianthus, Lachesis, Crotalus (all orifices bleed), Naja (Haemorrhage in intestines), Bungarus (ఎక్కిళ్ళు), Rhus tox.

## BARYTA CARB

### Introduction:-

Very deep acting, antipsoric and antisycotic drug. It effects all the harder tissues of the constitution. Especially glands and brain cells. It also effects the nerves and bones, it also effects the endocrinal system, Maturity of mind.

### I.Pathological Symptoms:-

- 1)Idiocy, dwarfish, rickety (marasmus). Hahnemann "Mentally and Physically Dwarfishness".
- 2)Girls refuse to mature. Mentally dwarfish, overgrowth physically. "They will die at the age of 30 years." This is due to Pineal gland disturbances (Pineal gland bring sense of music). So it governs the heart beat and respiration.
- 3)Glands enlarged and painful. Mental growth stopped.

**Important:-** Earache, pus brown, blackish very dirty smell. Decomposing meat). It contains for life long mastoid swelling, pus formation.

**Important:-**Tonsils swollen, adenoids swollen, stone hard, painfull, polypi in ears (outgrowth of muscular), skin in the ear. Very painful.

### II.Constitutional Symptoms:-

- 1)Children of psoric and sycotic patients take on sickness from infancy. Gradually they grow into glandular constitution with much emaciation and dullness of mind. Generally they refuse to grow into maturity with the age. They stand backward in the group of their age and they are often detained in education.

2)They suffer from frequent cold when they are exposed to cold, they show earache, throat pain, swelling of glands. Tonsils and adenoids.

3)They are generally filthy and dirty. They are not much conscious of cleanliness and decency.

4)Obstinate and narrow. They cannot fit into common hand.

5)Much of the time they prefer to stay at home in the back chambers or in the kitchen.

6)They fear to see the strangers or to keep company with outsiders.

7)Suspicious and jealous they are very timid to believe any one.

7)At any age a man may grow suddenly imbecile or senile and he may take to *Bary carb* constitution upto certain age he has been alert intelligent and normal, but suddenly he has developed idiotic, unsocial and imbecile nature of *Baryta carb*. This is because that the constitution undergoes "Metastasis" of any chronic ailments like malaria or filaria. He begins to behave a child to the surprise of his friends.

8)The old man gradually to lose his reason and culture and all that he has educated into. He begins to behave childish, foolish, narrow minded cannot and having mean, miserly attitude nearly developed. Gradual withdrawal of life from the brain cells.

All these types can be cured with *Baryta carb* according to their age. The drug is more often indicated in children and old people. (*Lycopodium*)

9)Late walking, late talking, late learning to play in children. (*Calcarea carb, Causticum*)

*Calcarea carb* – Inability to walk, late learning to walk. *Causticum* – muscles and joints stiff.

Late learning to talk – *Baryta carb, Bufo, Caladium*.

### III.Mental Symptoms:-

1)Retired – He cannot learn the strain of company either boy or man. అందరూ ఒకే చోట కూర్చుంటే వాడు మాత్రం ఒక చోట కూర్చుంటాడు. Mild – పిల్లలు కూర్చో పెట్టిన చోట అక్కడే ఉంటాడు. Silently angers. (పిలవలేదు, ఆలశ్యంగా పెట్టారని కోపము.)

2)Fear of strangers, bashful, (క్రోత్త వారిని చూస్తే face ఎఱ్ఱబడును.), సిగ్గు, covers the face with hands. Hides himself, doesn't want to play, sits in a corner.

3)Old people. Memory lost, gradually they cannot read, write or comprehend. They become senile (జడత్వము, బుద్ధి హీనత). They behave foolish (కొనుక్కోని దాచి అంటుంటారు), childish, narrow minded (card వ్రాయ వద్దు – మిగిలినవారు చదువుతున్నారు అని వ్రాస్తారు.) Suspicious - చొక్కా విప్పి చొక్కా తోడుక్కోరు purse వుందని).

**Key note:-**Jealous, very timid. (చీకటి అంటే భయం. ఒంటరి గా ప్రయాణంచేయలేరు.)

4)Premature old age after some serious illness (*Acid phos, Sepia*)

**Key note:-** *Acid phos* – A great blow on affection, చేయి వణుకుతుంది. Grey hair, భయం, Enormous loss of fluids through cholera or too much of bleeding for 2 to 3 months in ladies, weeping mood, morose.

*Sepia* – Gradually increasing dislike of family members, premature old. Never find smile on her face. Body becomes dry, thin. Generally menses disappear (dislike and hatred)

5)Fault finding, criticizes and cannot see their faces, unbearable burning in the stomach. They grow sterile.

#### **IV.Causation:-**

Prolonged living under much strain full condition, mentally tortured condition. Sleep for day and nights due to some patients or hard work.

*Baryta carb* – Always borrows troubles. కుళాయి దగ్గర గొడవలు తెచ్చుకొనును. Fear of something is going to be happened. “Imagines cares and worries” – KENT.

“All sorts of complaints and grievances that may happen “ – KENT.

#### **V.Modalities:-**

1)Progressive emaciation since the advent of – a)Fever with glands – glands remained uncured. b)Mumps – remain uncured. c)Filaria – remain uncured.

2)Dwarfish goes into marasmus (పిట్ట దేహము)

3)Glands swelling < from exposure to chill and cold weather (glands becomes more painful, high fever and he gets chills like malarial fevers) > from covering or warmth. All pains in the joints < sitting or standing, > lying.

4)Infiltration of glands – gland become a boil oozes pus or bursts into a big boil. Pus smell like a rotten meat.

5)Metastasis – a)Malaria b)Filaria c)Mumps d)Bronchitis e)Asthma f)Gonorrhoea g)Frequent cold and sneezing.

6)Dwindling (సుష్కించటం) of all parts of the body except abdomen (bloated) (*Natrum mur, Sulphur*) (*Iodium, Calcarea carb*). In these drugs there will be no retardation of mind, but in *Baryta carb* there will be mental retardation. This is seen in children, old people, liver troubles, ascites cases. Ascites patients has the mental symptom “Lassitude” జీవితము మీద కోరిక ఉండక పోవుట. (He answers only yes or no he refuses in detail. Burning of eyelids, he cannot open eyes completely. It is key note of ascites.

7)He develops in one or two days utter distaste for food. He only takes drinks but not solids, dullness. *Baryta carb* will cure (*Nux vomica* - heat loving, *Sulphur* - cold loving, loathing of food – *Antim crud*.)

*Merc sol* – Utter distaste for food, loathes for food, excess salivation, tongue enlarged. Hard breath – chronic apthae (sore tongue). Serrate tongue have impression of teeth, chilly patient.

Takes lemon with water – no food, wants to have cool breeze, motion – semi solid or yellow – *Pulsatilla* (cold loving). Icterus neonatorum – baby born with jaundice.

**Note:-** *Arsenic alb* and *Phosphorus* shouldn't be used at 6 potency. It will kill the patient.

< cold or chilly

*Nux vomica*

*Antim crud*

*Merc sol*

< heat or warm.

*Sulphur, Pulsatilla, Bryonia,*

*Phosphorus, Iodium*

NEXT STAGE:- Loose motions alternating with constipation, no intake, then water will be accumulated in the liver. It is incurable in any medicine.

Start with 6 then give 30 but *Phosphorus* 6 shouldn't be given. He will die. Start with 30 in all incurable cases, mental symptoms will be stopped. If he recovers then mental symptoms will reappear may be cured.

8)Suddenly old (at the age of 40 within 6 months he appears as 60 years old.) Skin wrinkles, senile, grey hair, idiotic with dried up – it follows metastasis.

9)Eruptions upto the head or scalp (*Arnica, Graohitis, Apis, Rhus tox, Baryta carb*) in *Baryta carb* – mental caliber will be retarded.

10)Thickening of eye lids, itching of eyelids, agglutination, profuse yellow pus (R).

11)Opacity (మందము) of cornea (*Arnica, Apis, Arg nit, Nat mur, Merc sol*) *Arg nit* and *Nat mur* కంటికి గాలి తగలనీయదు. Intense photophobia, cataract (right – *Lycopodium*, left- *Lachesis*) Start *Baryta carb* 6, after a month 30 next 30 or 200.

### ***Lachesis***

తల బరువు, చెవి లో హోరు, heaviness in head, confusion, drowsy, drunken, తిమ్మిరి, heaviness of left side parts, heaviness in abdomen as if after

### ***Spigelia***

Intense pain along the nerves (left side), headache, unbearable (left), sharp pain, ముళ్ళు గ్రుచ్చినట్లు, shooting sharp pain in heart, sharp earache, left

dinner, suffocated, B.P., staggering, palpitation  
< walking, horrible dreams, aloud,

side > chill, no disturbance in sleep.

all complaints horribly < after sleep.

*Lachesis* – తల నొప్పి – తలగారికి ice blade నెత్తిన పెట్టినట్లు ఉండును. *Farrington* – as if ice is kept on head.

12)Paralysis with imbecility (తిమ్మిరి) in old age.(మాట్లాడరు). The paralytic organs shows enlarged. Too much salivation. “A sensation of weight in the eyebrows” – KENT.

13)Old people – noises in ear while breathing – swallowing, chewing.

14)Ringing or humming in ears < in standing and sitting by lying.

#### **VI.Causation:-**

i)Lingering complaints after malaria.

ii)Mental or physical over work.

iii)Metastasis.

**Note:-** This is specially efficient in epilepsy where the patient behaves like an idiot because prolonged use of sedatives .

In paralysis of old people it is very difficult to swallow liquids. Liquids go to the wrong way – due to the paralysis of epiglottis. (*Opium*)

**VII.Inimicals:-** All calcareas are inimicals.

**VIII.Complementaries:-** *Bufo, Opium, Conium, Cannabis indica, Cannabis sativa.*

## **CANTHARIS**

#### **Introduction:-**

It is much known as specific external remedy for burns, water blisters with intense burning as agony as mental symptom. *Arnica* – Pains all over bruised feeling afraid of being touched.

**Note:-** In the following conditions *Pulsatilla* removes the scar and leaves the skin quite normal.

- a) Blisters due to burns.
- b) Boils of deeper nature.
- c) Small pox or chicken pox.

*Pulsatilla* should be applied internally immediately after the acute condition is cured. *Pulsatilla* 200 1 to 2 doses will complete the action.

**Psoriasis** – It is incurable in allopathy. చర్మము మీద సగ్గు బియ్యం వడియాలు పెట్టినట్లుండి, పలుచబడి పొరలు ఏర్పడి వూడిపోతూ, మళ్ళి 6 నెలకో 1 సంవత్సరముకో (R) – *Pulsatilla* 6 will cure otherwise it will remain throughout the life.

A better substitute for *Cantharis* is *Azadirachta indica* mother tincture external in any burns. ఎఱ్ఱటి పుండ్లు.

**READ:-** “New and old forgotten remedies of Hindustan”

**Pathological symptoms:-**

- 1) In inflammatory condition (నీటిపోక్కులు) develop with great rapidity. They may develop into gangrenous ulcers (నిప్పు కాలితే ఉండే మంటలాంటి మంట ఉంటే). Otherwise he will die within 5 days due to deadly blood poison, septic condition. They develop horrible mental symptoms.
- 2) Internal inflammation, manifests in throat, tongue, anus, urinary tract. It burns like fire and disturbs the mind in a violent delirious way. Most often it attacks the urinary organs and causes urinary inflammation.
- 3) Causes violent sickness with fever and mental excitement < cold exposure.
- 4) No free flow of urination with intense burning like fire and continuous sensation of urination.
- 5) Drops of urine slowly dribbled out one after another and each burns like liquid metal. The suffering causes unconsciousness and violent delirium.
- 6) Loses consciousness with red face alternating with violent delirium.
- 7) Mental symptoms alarming.

**Key note:-** Thoughts which are not her own as if possessed by a devil.

8)Great excitement and rage. They throw articles or weapons on persons, they injure and harm persons. They break things into pieces.

9)< from dazzling light. Brilliant shining surfaces (stainless steel or window pans). *Natrum mur*. *Natrum mur* is chronic drug of *Cantharis*.  
( *Hydrophobinum* or *Lyssin*).

10) < from touching the throat – goes into unconsciousness (*Natrum mur*, *Lyssin*)

11) < from trying to drink water (*Natrum mur*, *Lyssin*) నదిలానో సముద్రంలానో పడితే వచ్చే, shocking లాంటి sensations, arouses frinzing. వళ్ళు తెలియదు. పిచ్చి ఎక్కుతారు. (Restless resulting in rage).

12)Genitals inflamed “urine obstructed” – the patient goes into insanity, uncovers and runs into streets, talks objectionable languages, part less వారుడు, about genitals sore act rectum, stool or urine and also talks of menses, sings levid songs (బూతు పాటలు) (*Hyoscyamus*). *Cantaris* లో violence ఎక్కువ.

13)Headache as if stabbed with a knife. Burning in the deeper tissues of the head. Hair falls profusely due to severe headache.

14)Burning in the eyes sudden inflammation of eyes, smarting, pin pricking sensation in the eyes. The atmosphere looks yellow.

15)Tissues may decompose and may cause total blindness.

16)Dangerous inflammation in the lungs, burning in the lungs as if embers (నిప్పు కణికలు) are here. Rusty expectoration (phlegm) burning in the throat great thirst with aversion to fluids.

17)Urine burning and painful inflammation of the bladder and kidneys. Retention of urine, pain shoots in all directions.

18)Female - ovary sensitive in all private parts, cannot touch or wash or clean because of great nervousness in the parts.

**Causation:-** 1.Gonorrhoeal or Syphillitic poisons 2.Unclean habits after sex life or during menstruation 3.Perpural septic poisoning due to imperfect expulsion. (They go into convulsions of cramping nature. They may go into tetanus and die.)

**Drug relationship:-** Complementary to *Ars alb*, *Hepar sulph*, *Hypericum*, *Hyoscyamus* and *Anacardium*. *Natrum mur* is a chronic drug of *Cantharis*. No inimicals, but all animal poisons and *Psorinum* are inimicals.

## BUFO RANA

1) Idiocy either congenital or due to metastasis (*Baryta carb*, *Zincum met*).

2) Tubercular glands round the neck especially in children.

3) Marasmus (పిట్ట దేహం) etc. (Uncleaned hands of menses, impurity they handle the young children when the child is below 6 months old the mother goes with sexual contact and touch the child he goes to marasmus. The excrete of young frog falls on the clothes of a child leads to marasmus.

4) Abnormalities of sex like homosexuality, masturbation etc. It is a result of *Psora* and *Sycosis*.

5) Progressive insanity of passive nature. He loses the faculties of understanding. He loses the affections of the family because there is no comprehension. He forgets everything. He looks blank.

6) Muscular growths internal or external without pain. There will be no symptoms up to 10 years. Then he loses mental capacities. Then it becomes stony hard. He gets number of muscular outgrowths. It is known in allopathy as "Lupus vulgaris". It is incurable in allopathy, but it is cured in homoeopathy. 30% will be cured with *Bufo*. Rest will be cured with X- ray 30. Rat bite – వల్ల కూడ శరీరము మీద చాల కాయలు వచ్చును. ఇది కూడ *Bufo* 30 తో cure అగును.

7) Cancer of hard tissues or one tendon gland carcinoma with retardation.

(Abnormal muscles and internal organs, cancer is called "Sarcoma".)

Skin, mucus membranes – upper layers under the skin – if the cancer attacks it is known as "Epithelioma".

Leukaemia – is blood cancer. Very speedy (75%) killing of R.B.C., weakness – death – prolonged for 2 to 3 months if they give blood transfusion.

**Mental retardation** —————> love of loneliness, less and less talking. Gradually thinking about  
↓ sex and going into abnormalities of sex. He develops peculiar  
Narrow minded, habit to see the nude photos of sex and literature - *Bufo rana*.  
Childish etc. *Baryta carb*.

కొందరు అందమైన పెళ్ళాన్ని చచ్చేట్లు 1 గం సేపు చావకొట్టి, enjoy చేసి తరువాత sex life enjoy చేస్తారు. This is sadist.  
Sex psychology వున్న వాళ్ళు వచ్చిన *Bufo* గుర్తురావాలి.

**Constitutional Symptoms:-**

1)The child is dull and suffers from indigestion, enlargement of liver, enlargement of glands and marasmus. Even after coming to school age he is sickly and poor eater, who has no good appetite or digestion. All through the cases develops glands on the back of the neck. Many times the glands are in groups appearing like knots often the glands become stony hard and the child goes into emaciation. He looks like little old fellow with wrinkles on the face. Exactly like the child of *Natrum mur*, except in *Natrum mur* he is mentally active and physically sick. Whereas in *Bufo* he is mentally retarded and physically sick. Almost all the time the child is silent and doesn't mix with others. He likes loneliness and his hands involuntarily go and settle on the private parts.

2)As he develops into youth – his mind is confused with many strong ideas of sex. He sits alone and finds leisure to think of sex or to have objectionable procedure. Gradually he develops reading cheap sex literature and enjoying nude pictures where ever it is possible. As he develops into a man he finds himself emotionally confused and quite unfit for family life.

**Key note:**-No maturity of mind with the age. Width of mind is lacking. No control over thoughts. Low mindedness నీచప్రవృత్తియునగు, love of solitude, fear of being alone. They cannot bear or putting up with.

*Lycopodium*:-Mind feeble, cannot endure concentration. Generally he cannot meet the strangers. *Bufo* patient will have the above symptoms and low mindedness. He wants to keep himself engaged in many objectionable thoughts, sex thoughts.

*Baryta carb*:-He is afraid of strangers. Bashful (ముఖము ఎఱ్ఱ బడుట) wants to be alone to engage himself in sex thoughts.

3)The adult talks like a child, lack of comprehension (*Baryta carb*). Feels emotional enough to be sympathised. He feels all others are adults to him. He is really younger to them నన్ను తీసుకోని సినిమాకు వెళ్ళవూ, మీరిద్దరు నన్ను వదిలేసి, వెళ్ళారుకదా సరేలే, నేను మాట్లాడను, అలాగే officers and professors లోనూ ఉండును.

**Important drugs:-**

<i>Zincum met</i>	<i>Baryta carb</i>	<i>Bufo</i>
Suppression, metastasis,	congenital, metastasis	congenital, metastasis
Never congenital.	50% 50%	80% 20%
Fidgidity, nervous, sudden,	it is slow	sudden acute, childish and
Dangerous type of attack.	No nervous	mean, not at all nervous.

*Conium*:-The cause is psychological and the metastasis is slow, it takes few years. Due to the sudden death of husband to young lady (shock) and sudden cut of sex life. Then mentally bowed down. No immature mind. No low type of mind, no sex mind. Dullness, insanity and imbecility. Not at all nervous.

All the above four drugs go very deep and enters the vital force and constitution. Epilepsy can be cured with the above four drugs.

**Epilepsy curing drugs:-**

*Cuprum met, Nux vomica, Ignatia, Hyoscyamus, Agaricus, Natrum mur, Oenanthus crocata.*

*Cuprum met* > cold water, < hot water.

*Nux vomica* - fits 2-3 days విరోచనము అవ్వదు. Fits తగ్గేక మొండి కెత్తితే పై చెప్పిన 4 drugs లో ఏదో ఒక దానిలోకి వచ్చును. General గ చూసిన తెలియును. లేద KM 6x ఇస్తే 15 days లో frequency of fits తగ్గిపోతాయి.

4)It acts slowly on nervous system. Then find out the real drug. K.M. neutralizes the allopathic drugs. It neutralizes the evil effects of pencillin injection. Some cases are cured with KM only.

5)Weeps, moans when insulted. Titters (కులికి, వెకిలినవ్వు) for foolish things. The lady titters and narrates foolish things.

**Read:-** 1.New remedies and Lesser writings.

2.Clinical Materia Medica – Farington.

6)That are not to be laughed at all. (Ex. పక్కింటి సబ్బయ్య గారు భోజనం చేస్తుంటే అన్నంలో రాయి వచ్చి కొరికారు). This may lead into insanity soon.

7)Wants to be patted (తట్టుట), encouraged. Easily threatened even by children.

8)Premature old trait. Grow senile. ఇది Psora వలన వచ్చును. 10 సంవత్సరాల క్రితం చదివిన పుస్తకం ఇప్పుడు చదివితే అర్థం అవ్వదు. *Bufo*30 1 dose monthly gives very good comfort. Sometimes cures it.

9)Irrespective of age he feels sexy. She may be neighbor, stranger or so.

10)Apathy on son, daughter, wife etc., wants to be away from the people (*Thuja*). Angry – epileptic behavior like *Belladonna* patient. They are chronic in their mental behavior. Bites, tears, breaks objects, jumps at people. Easily laughs and cries.

11)Again and again he repeats the same foolish theory that is about future which is awful – *KENT*. Increased imaginations over nothing.

12)Stammering, starting after a certain age. Very angry when not understood. Often he bites his cheek while he is talking, often he bites his tongue and he is very angry about it.

**Modalities and Identification Symptoms:-**

1) < of some mental symptoms from sight of brilliant objects. (nausea, vomitings, sudden flare up of migraine headache. Epilepsy patient may get sudden attack of fit (*Cantharis, Natrum mur, Lyssin*)

2) Pupils dilated – do not respond to light (A few hours before on epileptic attack).

3) Mouth wide open (a few minutes before epileptic attack).

4) a. little blisters upon eye lids with itching, paralytic condition of eye lids (half open) few hours before the epileptic attack.

b. little blisters upon the cornea, they develop and get fixed, sometimes they formed a layer of obstruction and sight becomes gradually dim with mental idiocy.

5) a. stammering started after certain age. Stammering followed by anger.

b. frequent tongue bite or cheek bite with anger (If the fellow is mentally not retarded and altered *Causticum* is indicated.

6) Vomitings yellow fluids after drinking something cold (during epileptic attack).

**Typical:-**

1) Instantly the hands go to the genitals irrespective of age (In *Hyoscyamus* – the fellow instinctively uncovers the pants).

2) In advanced cancer of hard tissues when the suffering is too agonizing and if the patient belongs to a mentally retarded type then *Bufo* gives great palliation and comfort before the patient dies. – *Bufo* 200 1 dose.

**Drug relationship:-**

No inimicals.

Complimentary drugs:- *Baryta carb, Agaricus, Hyoscyamus, Ignatia, Anacardium, Conium*. It is one of the ranking drug which can cure the disease. *Sulphur* 30 may be required in the middle to activate the drug. *Calcarea carb, Calcarea phos, Calxarea flour*.

**Note:-** *Psorinum* shouldn't be given before and after *Bufo*.

## CONIUM

**Introduction:-** HEMLOCK POISON. This is a slow acting remedy while goes into the very depth of man. Each dose goes on working for weeks or months for some time. It is one among the deepest of the Anti Psoric and Anti Syphilis. Many incurable states are rendered curable with *Conium*. The *Conium* constitution may be congenital or it may be caused by sudden changes in the tissues or upon the mind. Often the cause may be a shock due to calamity and death also. It can be due to sudden cut off sex life. Often it is indicated in well behaved young people or middle aged whose marriage partner dies or separates. Hence it is called widower's drug. Also the sex starved so called celibates (బ్రహ్మచారులు) require it many times.

### Pathological Symptoms:-

1) Slow progressive degeneration of any function of the constitution going into incurability and slow death. (*Socrates* was killed with *Conium* or *Hemlock* poison.)

2) Sudden attacks of acute condition (even though paralyzed) *Conium* is not all indicated.

Explanation:- In cholera cases when the whole alimentary canal along with the other parts of the body is slowly getting paralyzed and becoming a corpse with in a duration of few hours *Conium* 6 1 dose he will get a sensation of wave from feet to hand. Then give food, give *Conium* 30 1 dose. Never repeat the dose *Conium*, progressive slowdown of mind and body.

*Acid phos*:- It starts with the mind and gradually creeps into the body i.e, in the beginning he will forget the names of the friends who has got 10-15 years contact. Next he feels physical exhaustion. Then he begins to tremble. In acute cases it is quite visible. In the next stage (chronic) he cannot get up from the bed. Physical caliber is lost and finally dies.

*Acid mur*:- (HCl) The body trembles first next legs, cannot stand or cannot hold but the mind is alert for 2-3 years. Gradually the mind inherit the weakness of the body when the mind is intact. He will get sense organs weakened and fail (opposite to *Acid phos*). Tongue disobeys, loss of taste, the tongue felt very heavy, he can't move it feels it like a wooden piece (ముద్ద మాట). This comes in acute condition like typhoid in *Acid mur*. (Tongue paralysis)

3) But in *Conium* the body and mind both gradually slow down simultaneously.

*Cocculus indicus*:- Voltage drop. (Responses slowed down.)

sensory nerves

Responses slowed down, reflexes slowed down. A type of slow sensory and motor paralysis. Trembling, dullness, as if he had no sleep for many months, headache in the cerebellum with nausea and vomiting and intense vertigo. All these head symptoms are < from a motor ride, బండి ప్రయాణం చేస్తే వాంతులు అయ్యేవారికి *Cocculus indicus* 200 1 dose. It will control.

Paralysis – Mental and Physical – Hahnemann.

4) a) progressive emaciation of the whole body (pseudo muscular hypertrophy సుష్కించుట. It can cure 35% of polio cases.

b) Atrophy of limbs – క్రమక్రమముగా అవయవ భాగములు కృశించుట one or more limbs. (ఒక కాలు తరువాత రెండవ కాలు emaciation.)

c) Progressive idiocy జడత్వం (ఏది మాట్లాడినా నవ్వుటంతో మొదలు పెడతారు.) within 5-6 years.

Hahnemann – In incurable cases when the drug is more indicated it is dangerous. Then give *Sulphur* 6, 1 dose.

Smiles at everything. Imbecile (poor understanding) అయోమయము.

d) Progressively failing memory cannot recognize the names of the intimate friends or relatives, cannot add up or multiply the numbers, cannot concentrate on anything.

5) Confusion of mind and vertigo < thinking, concentrating on any subject.

Vertigo < from closing eyes. Vertigo < lying down especially on the back.

Hearing – As if go into an abess (అపూతము). Herring. Hearing < stooping down (వంగినా).

Hahnemann “Things go round”.

6) Glands swollen, painful for some time and then painless hard stone, indurates becomes an ulcer, intense burning pain (remain). Cancer of gland – *Schinum*.

*Schinum* – it is a nosode obtained from the above gland.

i) pin worms cannot be cured from decades

ii)round worms cannot be cured.

iii)tape worms cannot be cured.

NP 6x for 2 months will cure.

iv)adenoids, tonsils will be cured < from every cold exposure.

v)stony hard gland of breast in a woman, at intervals she feels painful and swollen and after some years become hard and results in breast cancer (*Lac can*). Causation in (1)unmarried grown up ladies (2)nuns (3)young widows whose husband had a sudden death (4)widows of same type of sex activity cut off and the after effects – *Conium*.

7)Nursing mother or mother of infant mortality who has profuse lactation because of milk inside. Intense chills, shivering and high fever *Lac can* 200 1 dose will cure.

8) (a)progressive trembling, jerking of muscles, emaciation and paralysis of a limb with total loss of touch. (b)paralysis of the whole body through years. (c)paralysis of one side of face muscles in the eyelids cannot be closed or the eye lids cannot be lifted.

9)In early stages the person feels exhausted always very weak, slow breath and ringing in the ears, intense vertigo. All these symptoms are < suddenly after a stool or urination. Also < from walking quickly and getting up after sitting for sometime. Getting up (*Phosphorus*).

10)Many complaints go into painless, numbness (a)paralysed parts (b)ulcers (c)extremities.

11)Insanity of periodical type < full moon and new moon. Sad and gloomy moods every 14 days.

12)With any well indicated remedy the physical condition improves and the mental condition deteriorates – incurable stage. Then give *Conium* 200 1 dose, it will break the mentals, begins to improve and the case can be cured.

The mentals begins to improve and the physical condition goes on deterioration, then give *Sulphur* 1M. The physical deterioration will be checked and the person will be cured. (*Sulphur, Merc sol* and *Thuja* are indicated as lifesaving drugs, such circumstances, stimulents cause excitement “Face becomes prominently red in alcohol partner” KENT.

Alcohol, coffee etc, < exhaustion, trembling, weakness and prostration.

For *Conium* patients alcohol is poison – KENT.

13)Colour in vision, rainbow around with light vision is blurred. Diplopia, second *Phosphorus*.

14)Paralysis of the oesophagus swallowing difficult, food partly swallowed.

HAHNEMANN – 1)Quency the throat.

2)Bulb sensation fullness.

Tired of life, sees nothing only his sickness in future (mental sympathy).

15)Obstinate constipation, stool every 5 or 6 or 10 days the stool is formed in stone, hard lumps and cannot be expelled. Total paralysis of rectum. (*Opium* – very hard lump of stool). Too big to be expelled. It is a cluster of little marble like pieces very painful. Stool should be mechanically removed.

(b)Difficult to expel urine. Urine stopped in the middle.

16)Weakness and relaxed condition of genitals sexual impotency – great exhaustion and trembling, palpitation, vertigo and collapsing type of unconsciousness.

(a)On standing for stool (b)On straining for urine (c)after sex life.

17)Sweats copiously in sleep.

18)Great palliative for the agonizing pains in the last stages of cancer of gland or of the abdomen or of the breast or uterus in ladies. (*Aconite, Pulsatilla, Phosphorus, Chamomilla, Lycopodium, Bufo, Conium*). *Aconite* 200 1 dose first it gives definitely beautiful palliation. We can give on increasing potency without any danger.

**Causation:-**

a)Sex life suddenly cut off untimely widows and widowers.

b)Sudden calamity, the shock causes changes that lead the patient into *Conium, Opium, Zincum met, Acid phos, Cocculus indicus, Phosphorus, Aurum met, Lycopodium, Cannabis indica, Cannabis sativa, Morphia, Anacardium*.

**Complimentary:-**

*Opium, Cocculus indicus, Lachesis, Cannabis indicus, Cannabis sativa, Morphin, Anacardium, Hyoscyamus, Ignatia, Thuja, Nat mur, Acid phos, Acid mur*.

No inimicals to *Conium* except *Psorinum*.

## DIGITALIS

### Introduction:-

1)It is an acute and chronic remedy which is somewhat deep acting drug. It is not an antimiasmatic medicine. It cures very dangerous killing type of sub acute complaints. (almost chronic)

2)The movement you start treatment of *Digitalis* in allopathy it will kill the patient. Normal pulse rate is 72. Higher pulse rate decreases the longevity. Whereas low pulse rate or heart rate will increase the longevity. Read the book “THE LAWS OF SCIENTIFIC HAND READING” by BENHAM. Slow pulse 60-65 bats quivering beats.

3)Liver disorders:- enlargement of liver, congestion of liver, soreness of liver, tenderness. They will get definitely jaundice (*Nux vomica, Antim crud, Chelidonium, Iodium, Pulsatilla, Lycopodium, Crotalus hor, Lachesis, China, Merc sol*).

4)కళ్ళు చాలా పచ్చగా ఉండును. Sweat also yellow. (Maximum yellowishness)

5)Bowels very sluggish (కదలవు), no motion, light grey colour (total dyspepsia) undigested food materials go as they are. Alkaline stomach, pale stool like cooked starch – KENT.

6)The above three alternate each other in the beginning, later all the three exist and finally die.

**Key note:-** Nervous debility – sinking feeling in the stomach as if he would die as if hungry with anguish (మరణవేదన). Not better by eating. Not inclined to eat at all.

**Very important** – Intense nausea, smell of cooking food causes nausea and vomiting వేవిళ్ళకు wonderful drug – *Digitalis* 30 1 dose. (*Colchicum*)

7) TYPICAL – Lassitude (నిర్లక్ష్యము), restlessness, great nervous, weakness, faintness, exhaustion, prostration (ఆవేశము లేద దుఃఖము కలిగినను), fainting, begins in stomach.

8) Wants to lie on his back. Cannot lie on one side.

9) In sleep he feels falling down from the cot or chair, from the wall. He gets jerks during the sleep. Twitching in sleep.

HAHNEMANN – “Electric shocks”.

10) Frightful night mares – పీడకలలు.

Examples:-Thunders, electric storms, hill fallen etc.,

11) Sudden muscular movement (*Iodium*)

12) Bluish pale lips and nails, cardiac spells, face becomes blue with cold sweat.

13) Slow pulse – alternates with strange jerky beats. Dangerous stage swooning > by moving head to the sides. Typical “Hahnemann” “Sensation as if the heart stood still”.

14) Muscular exertion makes him feeble, sweating and < headache, cardiac cough. Cough at mid night (*China*). Expectorates like boiled starch. Expectorates bloody. Cough < from walking, talking, bending of the body and taking cool drink – strong modality.

15) Respiration irregular, constant desire to take deep breath (insufficiency of oxygen) walks up from sleep with a grasp or suffocation. (*Lachesis, Phosphorus, Carbo veg.*)

16) Constriction of cerebellum. Hahnemann “Hot sensation.”

17) All symptoms are < from lying on the back without pillow.

a) Constant urge to pass urine (prostate gland enlargement) in old people. *Digitalis* 5 or 6 doses in a year will cure.

b) Dropsy of limbs and face with suppression of urine (*Apis* cold craving, *Digitalis* – heat loving).

c) Relaxed genitals. Frequent night emissions.

d) Loss of appetite with violent thirst and nausea and sinking in the abdomen.

**Mental Symptoms**:-Anxiety, cannot bear disturbance of people, wants to be alone. Sad, melancholy, despondency. Cannot decide anything.

**Rare symptoms by Master E.K.:-** *Typical and Important:-*Lumbago alternates with pain of heart and vertebral column, under the neck – 30 dosage will cure go up to 200 also.

**Drug relationship:-** *China* only. It shouldn't be given before or after *China*.

**Complementaries:-** *Kali phos, Rhus tox, Arnica, Acid oxalic. Oxalic acid* < from thinking of pain spot.

**Important:-** > from keeping the mind busy 30 dosage.

## SYPHILLINUM

**Key note:-** Very deep antisyphilitic especially indicated, when the indicated drugs give only temporary relief with history of long standing ulcers.

### Pathological Symptoms:-

- 1)Great weakness with a past history of the acute syphilis with chancre.
- 2) a)Ulcers of recurring nature oozing and smelling like decomposed meat. They refused to be healed.  
b)Caries of the bone. Soreness and pain deep in the bone.
- 3)Violent neuralgias of the head. Obstinate headache that are not cured by any medicine.
- 4)Epilepsy with foul smell of the breath and mouth (decomposed meat) with history of deep ulcers suppressed.
- 5)Intense wandering pains tormenting all through the night.
- 6)Extreme progressive emaciation with a history of suppressed ulcer.
- 7)Curvatures in spine. Dwarfish children.

8)Fistula in anus. (*Silicea, Bufo, Calcarea sulph, Carbo animalis*). One year treatment 200 dose. Bony ulcers, muscular openings (on calf muscles).

### **Constitutional Symptoms:-**

a)At any age the patient doesn't show any interest for life and fine things that can be enjoyed. Often the person bony and emaciated with unclean skin that sweats and smells like decomposed meat. Often this patient smells like corpse. The skin has no shining, it is dry, smooth and cemented like surfaces, the hair on the body and head is lost early. In some cases the eye lids lose their hair and there will not be eye brows. Many people lose their moustache.

*Selenium*:-The sweat stains yellowish on cloth. All through the sleep it is a dream. He dreams routine matters of the day. The same dream continues after a disturbance.

**Key note for both**:-Very slow recovery after an acute disease, the weakness will not be better. The appetite not increased and the weight is not regained, often he will be getting little boils each of which continues for a very long time. He suffers from discharges in the ears, nose and throat. They smell very bad like decomposed meat. The nails and teeth begins decay and gradually drop off. Often these people complain about unbearable bone pains and nerve pains especially headaches.

b)Pains change their places from night to night and keep him awake all through the night. Frequent break down of health is found when the summer is hot and winter is too cold. The patient cannot bear chill and often found covered. Premature old age impotency is a common feature.

c)Especially the patient feels very weak whenever the physical symptoms especially the skin symptoms found better, sore mouth, gum troubles, tooth decay, ulcers in the throat and in the anus are the common ailments to him. The gums become loose and recede from the teeth. Yellowish and blackish dots or ridges are found on the teeth, frequent fevers with chill persist for days and weeks. They recur annually when the climate is too cold or too hot.

### **Mental Symptoms and Modalities of NOSODES:-**

1)Goes deep into the constitution. It goes deeper than any other medicine.

Sarcodes, Saprophytes EX: *Agaricus*.

Electrodes – *Electricitas* – X-ray. Incurable diseases - among them *Psorinum* stands first.

2)When an indicated remedies fails to act – *Psorium* 200 1 dose. Eruptions suppressed. (itch).

3)*Tuberculinum* – Indicated remedies fail to sustain relief. “whooping cough”

Hahnemann – No pull up. Cough suppressed or malaria suppressed.

4)*Syphillinum* – Indicated remedies act but for a very short duration, repetition proves that less effective.

a)Deep ulcers suppressed.

b)Mercury poisoning.

**Mental Symptoms and Modalities of Syphyllinum:-**

1)Acute fevers prolonged with ulcers, suppressed. H/O syphillis or syphillitic constitution or syphillitic patients చెమట, నోరు, చీము నీచు వాసన, గొంతుక నాలుక ఎర్ర బడుట without rectum or urine symptoms. All exudations smell decaying meat, adenoids, joints etc – *Syphillinum* 200 1 dose.

2)ముఖము, కళ్ళు,పళ్ళు, గొంతుక, నాలుక ఎరుపుగా వుండును.

3)The above symptoms and with rectum and urinary infections Sycotic miasm.

4)Slow, recuperation after convalescence. కోలుకొనుట చాలా కష్టము. కని గడ్డ వచ్చును. (*Selenium*).

5)Nerve pains, uncomfortable weakness or both headache from 4.30 PM to 5 AM. నమిలేస బాధ.

6)All the above symptoms are cured but ulcers come back. (only *Syphillinum* will cure it.)

7)Great soreness on bones especially head and legs, unbearable between 4.30 PM to 5 AM. Patients weep in pains in nights irrespective of age. ఈ pains తో బాధ పడ్డాక 10 లేద 15 సంవత్సరములు ulcers వచ్చును. మరల ulcer తగ్గక ఈ pains వచ్చును.

8)Paralysis of peristalsis – Discharges of valuable tissues through urine, ulcers or piles and fistula, stones in kidneys or urinary bladder, false pregnancy. These are Syphillitic miasms.

9)All sufferings worse at night from evening to morning.

10) sufferings are greatly < in bed, he likes cool air (*Sulphur*) even as *Syphillinum*. Dreads cool air.

**Note:-**All antispyhillitic drugs are chilly patients dreads coldness, wants coverings.

11)Great prostration (ప్రాణం పోతున్నట్లు) in the mornings after awakening (లేవలేడు, పళ్లపొడి వేసుకొనలేడు, పొట్లం చింపలేడు, లేచినా కుర్చీలో చతికిలపడును.)

12)Ladies – Epilepsy which repeats after every menses (5-10 days after menses) *Syphillinum* 200 will cure.

13)Sleepless most of the night. The flow of blood is heard in ears. (Humming sound).

14)Blood felt not in arteries during night.

15)Pains increase and decrease gradually. Headache రేపు నుండి పెరుగును. 4గు రోజులలో చాలా ఎక్కువ అగును. తరువాత తగ్గుట ప్రారంభమగును.

16)Symptoms < cold weather in winter and hot weather in summer (extremes of temperatures).

*Medorrhinum* – Pains < in winter, Mentals < in summer.

17)About the mentals < in cool when the storm is going on or chill his mentals are bad or in mood, gets irritation, suffers from lack of selfconfidence.

Example:-నన్ను గురించి ఎవరు పట్టించుకోరు. ఏకాకిగా ఉండి ఏకాకిగా చనిపోవలసిందే, దురదృష్టవంతున్ని, నాతో రాకండి మీ పనులు కూడ పాడైపోతాయి.

18)When the weather is hot he is better mentally – he finds everything ok. Comparison – *Aurum met* and *Aurum mur* also will have the same mental symptoms. He feels strange, loneliness in life.

19)Offensive odour of the body and discharges. Mouth breath – decomposing meat.

**Key note on body smell:-** *Sulphur* man smells H<sub>2</sub>S – SO<sub>2</sub>. *Thuja* man smell sensitive to smell (garlic or honey). *Merc sol*, mercurial odours, *Baptisia*, *Phosphorus*, *Pyrogen* (శవ గంధం). In *Natrum mur* – smells but loss of smells. *Thuja* and *Caladium* patients కు చమట పడితే ఈగలు వాలును. *Thuja* వాడు తన చమట వాసనను పీల్చును. Genitals and arms వాసన పీల్చును. *Pyrogen* – rotten leather (diabetes, carbuncle, gangrene). *Baptisia* and *Phosphorus* – cadaverous smell (one hour before or latter the death). *Podophyllum* and *Syphillinum* – decomposing meat – motion copious, gushes to a distance, room also smells.

**Important:-** Indicated remedies act only few days. Remedies must be changed in quick succession, unusually non responsive to drugs.

**Typical:-** Delirium in headache without any fever at all. This occurs every night for weeks or months. He goes on taking his routine office work.

20)Paralysis occurs in little spots of any limbs for example one eye-lid doesn't close or upper eyelids doesn't rise. (*Causticum*).

**Peculiar point:-** Whenever *Sulphur* is over drugged in very potencies *Syphillinum* removes many of the sufferings. All < of *Sulphur* are successfully removed. But they occur again and again. Every time one dose of *Syphillinum* 200 will give good relief.

No complementaries but is complementary to all drugs. No inimicals it can be used before or latter any drug.

**BOOKS NECESSARY:-**

1. Drug relationship – Descriptive repertory – by C.B.Knerr.

2. Lippie – Repertory to begin.

**Inimicals:-** *Acetic acid - Belladonna, Causticum, Lachesis, Mercury, Nux vomica, Sarsaparilla, Ranunculus bulb.*

*Ammonium carb × Lachesis, Apis × Rhus tox.*

*Arnica – After an insect bite or animal bite.*

*Arum triphillinum, Caladium or wine.*

*Belladonna, Dulcamara - Venegar.*

*Benzoic acid – Wine*

*Calcarea carb – Before Sulphur, Nitric acid, Bryonia.*

## **ANACARDIUM**

### **Pathological Symptoms:-**

1)Skin diseases in the folds of the feet, ankles and folds of neck. Skin become thick, black, black spots sometimes black with white spots itching oozing, burning (*Anacardium* 6 monthly 2 to 3 doses and then give *Sulphur* 30. If there are no other mentals or modalities.

2)Insanity of various types – Total loss of mental comprehension. Example:-Lady cannot recognize her husband or children, forgets her name. ఇది సాధారణముగా *Lachesis* లో perpurul condition లో వస్తుంది.

3)Epilepsy (with other mental symptoms), total in – *Anacardium*200 1 dose. The patient must be conscious and couldn't recognize other people.

4)Skin eruptions with pus and chill appears as *Rhus tox* but not.

5)Skin troubles leads to malignancy.

6)Warts on palms (*Natrum mur, Causticum, Spongia*).

7)Black patches on any part of the skin (*Anacardium, Vipera, Merc sol, Syphillinum*).

8)Bone curvatures – Mainly spinal cord – Treatment – 4 years.

### **Constitutional Symptoms:-**

1)He has no sense of morality. No value for responsibility.

2)No love for anybody. Heartless – (*Opium, Sepia, Aurum met*). Morose, lack of opinion etc. ఒకళ్ళను ప్రేమించి మరొకరిని పెళ్ళి చేసుకుంటాడు. పాముకు పాలు పోసినట్లు. No pity anybody, utterly selfish (Example:- Friend మీదే report వ్రాయును.)

3)Peevish (నీచము), miserly (పీనాశి), Heartless, deceitful మోసం, cunning, misrepresenting things. No consideration for wife, children and friends.

4)Inclined to be very dirty more than *Sulphur*.

5)Out law (instinctive disobedience to law) disobedience, absconds from duties.

6)Habituated constipation. Motion unbearable smell.

7)Physically strong and sturdy, wants more food than others, suffers from over sexy instinct, wants a woman everyday. (He cannot live without a woman), Nymphomania. మద పిచ్చి. Insanity, They walk on the streets naked. Only thing to control him is manhandling, start with 1M, 10M, 50M.

### **Mental Symptoms:-**

1)Mind gradually become feeble, understanding power decreases.

2)Imbecile (జడత్వము), after a strong attack of typhoid, meningitis etc. in ladies puerperal sickness etc.

3)Dazed (stunned), “doesn’t know if the environment is true or false.” *Hahnemann* జబ్బు చేయ్యటం వలన వస్తుంది గాని constitutional (గారం). Everything appears as if in a dream nothing in real to him.

4)Forgets – places, persons, names and work. (early stage).

5)Marked irritability with violence. Example:- మాట్లాడవద్దు అన్నప్పుడు మాట్లాడిన కొట్టును. He is half beast, he feels he is correct.

సినిమా friend బాగుందని వీపు బద్దలు కొట్టను. పిల్లలను పిలిచి, కొట్టి, ఏడిపించి ముద్దు పెట్టుకొనును.

6)Disturbed by everything. Example:-Doesn't give any plan to do it. But scolds everyone – “Controversy with himself.” *Hahnemann* – Hesitation – cannot decide between two alternatives. (This is an insanity before 3 to 4 years.)

7)When there is one German – he is against himself – when there are two Germans they are against others.

8)Voice hard (next stage)

9)Bluffing, swearing (ఒట్లు పెట్టుట), cursing (శాపనార్థములు పెట్టుట), malaise(చుప్పనాతితనము), చాలా ఎక్కువగా ఉండును. Religious insanity and manias (Example:- దొడ్డి ఎవరో కొబ్బరి కాయ పాతి పెట్టారు.) He thinks very bad about others for everything. Alternation of above states.

10)Laughs when he is expected to be serious. (Nasty symptom).

11)Hallucination చిత్రభ్రాంతి (a)That he is double lower himself, upper himself. అంతరాత్మ

(b)That he is pursued (*Natrum mur, Hyoscyamus*). Low spirited, dishearted. (Example:-భోజనం చేస్తున్నప్పుడు ఎవరో వచ్చారంటి గుండె జారిపోతుంది.)

very timid – revengeful.

Typical criminal. Murderer. No peace of mind.

12)Slight causes makes him angry, cruel and wicked.

**Modalities:-**

1)Very weak and palpitating and timid when hungry. Stomachache > by eating.

2)Headache suddenly < from hungry. It will not > by eating (*Sulphur*).

3)Hunger many times a day. సాధారణముగా impress చేయటానికి బూతు పదములు వాడును.

4)Plug sensation పుల్లపెట్టినట్లు earache, headache, stomachache etc.

**Important :-** *Kali bichromicum* – Circular గా ఒక particular spot లో (పావల) pain వుంటే *Kali bichromicum*

10M 1 dose వేస్తే definite గా తగ్గుతుంది. Only definite drug it cure any disease.

*Hepar sulph* – fish bone sensation, voice పోవును. 200 1d. Between 9-10 PM, he gets cough.

**Note:-** *Aconite*, *Hepar sulph* and *Spongia* దగ్గు ఒక లాగ ఉండును. Barking croupy cough – గాడిద అరచినట్లు. Hoop sensation (a band around the part) just like horse shoe, sharp pain in any part.

5)Object appears far off.

*Agaricus* – Location, sensation distorted గాలిలో గోకు ను. 200 1dose. High fever, in meningitis, septic fevers etc.

6)Illusions of smells (foul smells like burning timber, pigeon's dung).

7)Grows impulsive when he sees sharp instruments or blood.

8)Trembling of a limb results in gradual and total paralysis, before this symptom he is very angry, beating, abusing mentality.

**Causation:-**

a)Bad effects of constant mental excitement.

b)Consequences of fright.

c)Checked eruptions.

d)Too much sex indulgence.

**Antipsoric, Antisyctic and Antisyphillitic drugs:-** Code:- 1.ANTIPSORIC 2.ANTISYCOTIC 3.ANTISYPHILLITIC.

1.Alumina

23.Ledum pal.

2.Anacardium – 1,2.

24.Lycopodium – 1,2,3.

3.Antim crud – 1,3.

25.All Natrum salts – 1,2.

4.Apis.

26.Nitric acid – 2,1.

5.Arsanic alb – 3,1.

27.Phosphorus – 1,2.

6.Arsanic iod – 3,1.

28.Acid phos – 1,2,3.

7.Aurum met – 3,1.

29.Psorinum – 1,2.

8.Aurum mur – 3,1.

30.Pyrogenum – 1,2.

9.Baryta carb – 1,3.

31.Sarsaparilla – 1,2,3.

10.Bufo – 1,3.

32.Selenium.

11. Conium – 3,1.

12. All Calcarias – 1,2.

13. Carbo animalis – psoric, sycotic.

14. Carbo veg

15. Crotalus.

16. Graphitis.

17. Hepar sulph – 1,3.

18. Iodium – 1,2.

19. Kali bichromicum – 1,2.

20. Kali carb – 1,2.

21. Lac can.

22. Lachesis.

33. Sepia – 1,2.

34. Silicea – 1,2,3.

35. Staphisagria – 1,2,3

36. Sulphur – 1,2,3.

37. Tuberculinum – 1,2,3.

38. Zincum met – 1,2.

**Note:-** Acute diseases లో నున్నప్పుడు antimiasmatic drugs ఇవ్వకూడదు. ముందు nonmiasmatic drug ఇచ్చాక తరువాత miasmatic drugs ఇవ్వాలి.

**ANTISYCOTIC DRUGS:-**

**KEYNOTE:-** 1) Outgrowths on the body.

2) Digestive disorders (amoebiasis, dysentery).

3) Anus troubles.

4) Chronic throat troubles.

1. *Argentum nit.*

2. *Benzoic acid:-* a) Unbearable foul smell of urine.

b) Urine leaves a sear on the cloth or floor.

c) Emaciation.

d) Weeping in the morning.

e)Rheumatic troubles (in elders).

3.*Causticum*.

4.*Mezereum*.

5.*Natrum mur*.

6.*Pulsatilla* – sycotic, syphilitic.

7.*Thuja* (King of sycotic drugs).

8.*Medorrhinum*.

9.*Clematis erecta* – gonorrhoea suppressed. Leads to joint pains, stones in kidneys.

LIST OF ANTISYPHILLITIC DRUGS:-

1.*Mercury compounds*. (King of antisyphilitic).

2.*Phytolacca* (Plant mercury), cures rheumatic arthritis (*Merc sol*). *Merc sol* and *Phytolacca* are only two drugs which can cure it. *Merc sol* 6 for a week, 3 months cured.

**Note**:-Injury తగిలినప్పుడు *Arnica* 6 4 doses daily it will be cured. Perfectly rather than 200. Higher potency is not useful.

3.*Syphillinum*

## SHORT NOTE DRUGS

### ABROTANUM

1.Any chronic complaint appearing after a history of diarrhoea checked. (Emaciated due to use of Mercurial compounds).

2.The above history of diarrhoea checked results in

(a)Rheumatic pains with heart palpitation and heart pain.

(b)Anxiety, trembling, sweat, fear, emaciation.

(c)Bloody urine, epistaxis or blood in stool.

(d)Marasmus children పిల్లలు ఎండి ఎముకల పోగు అగపట.

(e)Metastasis – ఒక వ్యాధి పూర్తిగా మాయమై మరొక వ్యాధి రూపము ధరించుట. Example:-Mumps cure చేస్తే కొన్నాళ్ళకు (పూర్తిగా cure అవ్వకపోతే) swelling of testicles వచ్చును. In babies it leads to swelling of memory glands very painful and dangerous, it may lead to cancerous.

(f)Hydrocele in boys within 10 years.

(g)Bleeding of naval in infants.

**Modalities:-**

1.All complaints < cold damp weather (in elders backache).

2.Complaints < by night.

3.Diarrhoea  $\longleftrightarrow$  with constipation.

4.All complaints < from constipation.

5. > of all symptoms from loose motions.

6)This drug is “More often used than supposed” – KENT.

This drug works very well at 200 potency.

**ACETIC ACID**

1.Pale, cold, nose colder and sickly weak for years. Emaciation, anaemia, white tongue. Sometimes with black spots.

2.Copious, pale, watery urine, burning thirst, loss of appetite, నోరెండుట, fainting.

3.In case of little injuries, no blood is found. In ladies menses is stopped for many months.

4.Dropsy of various parts with pitting (నీరు పట్టుట). Heart dilatation.

5. Chlorosis (పాండు రోగము), discolouration of whole body especially in young girls. (8-20years).

6. Bleeding from mucus membranes. Example:-nose bleed, gums bleed, blood during tongue cleaning, tongue bleed during sore tongue, uterine haemorrhages, bleeding from urethra (during typhoid).

7. Liver enlarged – cirrhosis of liver in children, in elders – ascites.

8. Confusion – సరుకు పక్కన పెట్టుకెని వెతుకుట. Anguish తపన, కడుపులో దేవినట్టుండును, forgetting, apprehension – భనిష్యత్తును గూర్చి దూరలో చన, jaundice, son may come across an accident etc. peevish అల్పవిషయాలలో నీచముగ ప్రవర్తించుట. నీచమైన దొంగతనము, బియ్యము ఏరుతున్నప్పుడు బియ్యం తినడం, బియ్యంలో బెడ్డలు తినటం hobby.

9. Always complaining about everyone.

10. Vomits blood and food taken, sour eructations, digestion of stomach. Man – weakness with frequent loss of semen (*Selenium, Acid phos*).

*Selenium*:- Dreams with loss of semen. Loss of hair on head, eyebrows, swelling of extremities due urine suppressed.

**Modalities:-**

1. Sensation of heat with pulsation.

2. Burning in stomach.

**Causation:-**Alcohol addiction, Bites of insects and animals.

**ACTEA RACEMOSA OR CIMICIFUGA**

It has similarity with *Arsenic alb, Ignatia, Coffea*. It is remedy for women than *Pulsatilla*. This is real female remedy. Hysteria  $\longleftrightarrow$  Rheumatism (main key notes) when physically well she talks nonsense. When mentally well, she suffers with rheumatic pain when both are better, loose motions.

Hysterical symptoms of Women:-

1. Weakness (mentally) 2. Trembling 3. Numbness with cold sensation 4. Jerking, involuntary 5. Swooning (fainting but it is not dangerous). Respiration also changes or increases sometimes. It stops for few seconds. 6. Sadness for nothing (like *Pulsatilla*). 7. Fear of death (stands continuously until she gets

rheumatic pains). It may lead to *Arsenic alb* – It may function for one or two weeks and then stops or become worse, then give *Cimicifuga* it will cure it.

Rheumatic Complaints as Follows:-

1)Pains all over “pains cause desires to be sick”.

2)All pains < from before menses. (worst period)

The patient is worse 2 ½ days before menses and 2 ½ days after menses. Pains are < during night.

*Irregular menses:-* It may be sometimes too early or too late. Irregular flow (1<sup>st</sup> day little flow 2<sup>nd</sup> day no flow, 3<sup>rd</sup> day abnormal copious flow) like that – unbearable pain during the flow (as long as there is flow it is painful). The more the flow is the severe the pain is “jerks during menses, fits during menses”. Epilepsy that occurs only during the 7 days including menses (many times during this period but not in other times.) Nausea, vomiting (but not blood) during menses (*Phosphorus*)

In *Phosphorus:-* Nausea during menses not only that vomiting of blood, not only that instead of menses vomiting of blood – vicarious menstruation. Nausea during pregnancy as if that heart is sore. Patient language – గుండెల్లో పచ్చి పచ్చిగా వుంది లేదా వుండు అయి పోయినది.

**Modalities:-** The patient is chilly. Wants to be covered or warmth (opposite to *Pulsatilla*). All the physical symptoms are < cold exposure especially headache.

Mental symptoms < fear, excitement – వీరికి బొద్దింకలు, ఎలుకలు అన్న తీవ్రభయము.

**AETHUSA CYNOPIMUM.**

1) It is a life saving drug and helps in collapsing cases.

2) In cholera one motion even can take to life of a person but it differs from person to person.

**Cholera drugs:-** *Camphor, Veratrum alb, Podophyllum, Cuprum met, Ipecac, Natrum mur, Phosphorus, Ars alb* also *Aethusa*.

3) Especially indicated in infants (5-6 months below the age). Child grows sick due to excess of milk – cause is over feeding. i) Vomiting, → ii) Within 15 minutes thin yellowish green motion, → iii) Within 2 minutes face becomes pale, → iv) Lips blue (sign of collapse), → child cold, eyes sunken → goes into sleep, v) → Within 1 hour wakes up, vi) Then goes to the 1<sup>st</sup> step i.e, vomiting. Sometimes children collapse in 1<sup>st</sup> cycle or in the 2<sup>nd</sup> cycle. Then if you give *Aethusa* during first cycle he will be saved.

4) This is due to bad nursing by mothers. It works within seconds. Dosage if it is serious, can start with 6 potency for every 6 minutes, 3 or 4 doses, then give 30.

5) Adults – delirium suddenly develop in sleep after an exposure to hot summer or hot breeze in nights. Awakes with vomiting or motions 1 or 2 times then dies. Smell of milk or coffee causes nausea. The same may be repeated in infants or children. It is known as “Summer Diarrhoea” (*Ars alb, Natrum mur, Phosphorus*) within 5 minutes the child is recovered by *Aethusa*.

6) Milk sickness – The infants spits the milk, the mouth smells sour. This is due to idiotic mothers – *Oscimum santum, Aethusa, Lac can, Pulsatilla*.

7) The digestion of an adult is disturbed every time from excitement, anger, serious discussion or some brain trouble with this digestion will be disturbed for 1 week – It may lead to cancer in intestines or in brain. Brain troubles, vomiting may cause brain cancer. After setting cancer *Alumina* works but not *Aethusa*.

8) Post Meningeal Hydrocephalus (*Apis, Tuberculinum*).

9) The patient always feels hungry and goes on eating always *Aethusa* monthly 2 doses for 3 or 4 months will cure.

**Modalities:-** Sudden attack of any acute illness during sleep in very hot weather.

**Causation:-** 1. Improperly and untimely feeding.

2. Summer heat.

## SARSAPARILLA.

1)It is a very strong antipsoric, very deep acting and long acting drug. After giving 1 or 2 doses we have to wait for very long time with same dose, if there is relief. It is ranking drug in heart diseases.

2)Mind confused, crazy, restless probably due to urinary irritation. (*Sarsaparilla, Cantharis, Apis, Lycopodium*) *Cantharis* comes first then comes *Sarsaparilla*. Slow comprehension i.e., person cannot understand properly.

3)Lack of reaction to medicines, many drugs fail to act (*Sulphur, Psorinum, Tuberculinum, Laurocerasus* 30).

## LAUROCEROSUS:-

Chocking in the throat, peculiar dryness in throat, craving to expose the body to very cold air. He feels very great heat in the body but if we touch it will be like corpse. It is very famous heart disease with chocking.

4)Tendency to ulcerate easily (గట్టిగ నొక్కిన, పట్టి పెట్టు కొన్న పుండు అగును.) Just like *Sulphur* healing very slow.

5)Heart palpitation, pain in heart < physical work, mentally excitement and suffocation.

6)Urinary tract inflamed, very painful, unbearable burning. The burning makes the patient insane cannot bear cloth on just like *Cantharis*. But in *Cantharis* the insane person talks about genitals and obscene language, but in *Sarsaparilla* doesn't talk foul language. Sediment in urine, sand in urine (*Lycopodium* but sand is red) here the sand is white or gray.

*Lycopodium* – The patient suffers with rheumatism alternates with urinary troubles and also milky urine with burning. It is called in allopathy – Chyluria. Stones in bladder, most painful, this reduce pain but sand or milky urine contains for 1 or 2 months, but finally cured. (*Berberis vul*) *Arsenic alb* 200 can cure stones in bladder with restlessness.

7)Blood in urine, very painful and burning, unbearable sometimes pus in urine – so it is a proper drug in gonorrhoea and also in cancer, in kidney, urethra and any blood, pus is coming out with severe pain.

8)So palliation drugs in cancer in urinary tract – *Sarsaparilla, Lycopodium*.

## Modalities:-

1)Internal symptoms (pain) < by heat and hot applications. ఎండ పెరిగినప్పుడు urine pass చేస్తుంటే నొప్పి ఎక్కువగును. Headache pain > by heat and hot application.

2) Bone pain (sycosis, syphilis cases) post gonorrhoeal patients or bone pains ఉండును < in winter and nights. Same modality is there in *Medorrhinum*.

**Particulars:-** Varicose veins (*Secale cor*, *Lachesis*, *Sarsaparilla* can cure) painful and burning keeps in elevated position – *Hypericum*.

*Hypericum* – strong modality – when patient is hanging downwards the pains are horrible but if he keeps in elevated position they are >.

3) Most eruptions with itching and blue spots.

4) Purple spots on tongue and inside the cheeks.

5) Urine leaves marks on cloth in the case of a child. The child screams and cries during and before urination.

6) Cannot pass urine in sitting posture, urine dribbles unconsciously while standing (old people). Pain and burning.

7) Obstinate constipation with violent urge to urinate.

### **ALETRIS FARINOSA**

1) It is a predominantly a female remedy.

2) Women predisposed to menstrual irregularities. In some women tendency to abortions.

3) Menses with too much flow, many times in the month she suffers from too much flow.

4) Uterine haemorrhages (breakage of vessels) wastage of fresh blood. Uterine troubles are hunting her all through the life.

5) Further fever or hot sensation or both as long as the flow continues.

6) Menses appears during pregnancy (threatened abortion, it may be in any month) (*Sabina*, *Secale cor*).

**Sabina:-** Abortion before 5<sup>th</sup> month, shooting pain from pelvis to pubis. It can be administered in pregnancy or without pregnancy. It need not be female if a man gets such pain give *Sabina* 200 1 dose. It will control pain in legs. Flow of red clots.

**Secale cor:-** Abortion in later months. Blood is bluish black. Many times it is dirty muddy thick and foul smell. Generally high fever and also delirium, stupor (every condition shows like septic condition – sometimes it is fatal.)

**Abortion note:-** It is a psoric case. The treatment should be started before pregnancy but not after pregnancy. The treatment should be started after one month of abortion with *Sulphur, Thuja, Phosphorus* etc.

**Gangrene:-***Secale cor* is ranking remedy. Bluish black with dirty muddy foul smell. Then it cures surely. Start with *Secale cor* 30 and repeat it 2 to 3 times. After 15 days give 200 1 dose. It can be repeated once again 3 or 4 months 200 1 dose.

Old gangrene cases – bluish marking, pain, swelling, fevers subside and gangrene comes. In varicose veins.

7)Uterus filled with blood and gushes out red clots.

8)Haemorrhage during menopause. విపరీతంగా bleeding ఉండును. When exhausted – unable to speak, pale face, sweats alternates with heat and fever (*Ferrum met*).

**Ferrum met:-** Uterine haemorrhages, face red → false plethora, one cheek red, warm, one cheek pale, cold.

9)They have flushes of heat travelling throughout the body. Obstinate constipation, stool very large and painful. (verifying question).

**Modalities:-**

1)Bruised feeling in the ovaries, bearing down sensation (private parts జారిపోతున్నట్లుగా ఉండును. (*Pulsatilla, Sepia*)

2)Complaints < in the middle of the night (suddenly starts).

3)Loss of urine while coughing, laughing, walking and while sleeping.

4)< of all complaints from catching cold. (haemorrhage or flow etc.)

5)Vomiting with colic during pregnancy.

**Causation:-**Weakness of uterus.

## AURUM ARSENICUM

It is slow acting drug, very strong antisyphillitic drug.

**Mental Symptoms:-**

- 1) Morose, sorrowful, philosophical mania (conducts discourses "life is useless")
- 2) Heaviness (కాలు కాని, చేయ్యి కాని, ఏదైన బరువు) అలాగే ఉండిపోతుంది. Formication (crawling sensation inside) swelling, numbness (slowly) of parts. Loss of sensation in the part (Leprosy).
- 3) Induration (A dead matter solidify at a particular part it is hard) nodules of bones or projections of joints. Mainly in the ankles or muscles. After some years they grow cancerous or gangrenous. Next they may become leprosy.
- 4) Burning pains in bones and unbearable in the nights (sun sign of advanced case of syphilitic miasm).

**Leprosy case drugs:-** *Aurum met, Aurum ars, Syphillinum, Silicea, Kali bichromicum.* Ulcers వస్తాయి.

అప్పుడు *Syphillinum* 30, 5 to 10 doses in alternate days. Then decay will be checked. Then another dose after one month. Then after one month 200 1 dose. It will be cured. In some severe cases *Syphillinum* 1m or 10M.

5) Trembling (due to nerves syphilis) numbness, dryness of skin just like leather, dry induration. ఒడియాలు ఎండినట్లు ఉండును. చిల్లులు, కన్నాలు పడును. Dusky black. It is called dry leprosy. Then it leads to marked emaciation in that part – wastage, dry gangrene.

6) Absent minded, criticizing, finding faults with everyone.

7) He believes that he is doing wrong that he is insulted someone and he fears to face him (*Silicea*), cannot face situation. (It is common in *Silicea, Aurum ars.*) Fear of examinations. Many rushing plans in the mind with aversion to work.

8) Caries in bones (ఎముకలు పగుళ్ళు, కన్నములు)

**Modalities:-**

1) < of mental symptoms during and after eating. Restlessness and anguish మరణవేదన వంటి (*Hyoscyamus*)

2) Desire to go home and lie down. His mind is too restless when he lies down and takes rest. Mind is calm when he is physically busy.

3) All complaints are < in winter.

4) Often his complaints are right sided.

No inimicals.

## ALUMINA

Peculiar mental state and important drug for cancerous cases.

### Mental Symptoms:-

1) Peculiar confusion of mind. Doubt about the reality of an incident. Example:- A cashier of an office locks the chest and verifies twice or thrice. He gets doubt it and comes back to see whether locked it or not.

*Caladium*:- A gradual decomposition of mind and brain cells in both. In *Caladium* he observes the curves of ladies and enjoys of it. This is due to over indulgence of sex.

He doesn't observe the minimum distance between a male and female. They place hand on their friends and then talks.

2) Total forgetting of any incidence within a few seconds when questioned.

3) Irresistible craving for cigarettes or smoking.

4) He smokes one cigarette and keeps on the ash trays and fires another one.

### Causation:-

1) Too much poisoning of tobacco in chain smokers.

**Note**:- He remembers the remote past in detail. Chain smokers can get rid of smoking by using *Caladium*.

*Nux vomica*:- Removes the bad effects of tobacco, narcotics and alcohol. But it cannot remove the habit of smoking. 200, 1M, 10M.

2) Wastage of semen while reading books of sex or thinking or talking of sex. He will become useless to family life. *Caladium* cures such impotent cases wonderfully.

3) Swelling of testicles along with impotency and wastage of semen. No decision, confusion about "who has said it" తను అన్నది ఎవరో అన్నారని తలచును.

4) **Kent**:- "Doubt another person done it". Confusion of ideas. Just after awaking – he is confused about his identity, dazed for few seconds. In the fever also he forgets his identity. When he is becoming insanity also he forgets his identity.

5) Mistakes in writing and reading. Useless words notes intended. Example:- "సాబ్ ఆజ్ మర్గయా" uses wrong words. Inability to follow up the train of thought.

6)He is a great hurry. Mind is ahead of programme. Feels everything delayed. He is always sad about it. Roaring and moaning about the delay.

7)**Keynote**:- Wants to get away from the situation. Example:-Always tries for transfer from places because he feels awful in the present place. This indicates he is going to get an incurable disease like cancer within 10 years. This is precancerous stage or otherwise it may lead to gangrene, ascites, hydrothorax etc.

8)He will get his own impulses. His impulses are exactly like that of *Anacardium* and harms himself or others. రక్తం చూస్తేనే కళ్ళు తిరిగి పడిపోతారు.

9)Many times mainly he fears that he is losing his reason. Something evil is going to happen. (*Acid phos*)

**Keynotes**:-మన ఇల్లు తగలబడుతుంది. – *Acetic acid*.

### **Pathological and Constitutional Symptoms:-**

1)Weakness of muscles, progressive loss of grip through years. (*Conium*) చొక్కా తోడుకోలేడు.

**Note Very Important Symptom**:-when you doubt of the constitution doesn't respond to any medicine in a chronic disease give 2 or 3 doses of *X-Ray 30* within an interval of a week. *X-Ray* awakens the reactivity of the cells.

2)In cancer if the patient gets relief in the physical plane for all practical purposes then it lead to dyspnoea, heart weakness and collapse within a week.

**Note**:-Emaciation ఎంత slow గా వస్తే అంత incurable. Difficult to move throat, palms, arms or legs. Gradual paralysis of bladder or rectum.

3)Throat paralysis లో తరచు throat sore or ulcers వచ్చును. Throat ulcers long before throat paralysis (*Causticum, Nitric acid*). Gradual progressive paralysis on one side.

4)Gradually increasing pain and constriction in throat or reeling or urethra or sore unbearable smarting pain, shooting into the neighboring parts. In capacity to swallow only things at all. It is throat cancer. Maximum no. of throat cancer are cured or done palliation by *Alumina*.

5)Progressive emaciation, bony skeleton like withered, dry skin, cracks వ్రేళ్ళ మడతలలో bleeds < warmth and summer, crusts formation (*Aurum ars*). Eye lids granular – కంటిలోంచి తీసే fine crystals వస్తాయి.

6)Sounds in ears, buzzing (in one ear or two) spurting, cracking while sneezing (ముక్కు చీదితే లోపలకుర్లు మనును) otorrhoea (చీము) brown, blackish and foul – derangement of hearing, అందరు calm గా ఉన్నప్పుడు పిలిచారా అంటాడు.

7)Frequent emissions of semen in dreams, relaxed genitals (feeble) progressive impotency.

**Keynote:-** “Sex desire gone”. Opposite to *Caladium*. (a)progressive trembling of knees మోకాలు పట్టు వదలును. In one or two months he cannot walk. (b)soreness of heel < in sleep(morning)

**Modalities:-**

i)Mental symptoms are < in the morning, ii)Vertigo, confusion in the morning, moods change – sure sign for brain cancer or cerebral haemorrhage within 10 years, iii)Headaches with nausea and vomiting (It may lead to brain cancer), iv)The tip of the nose cracked (sure indication of *Alumina*), v)sensation of dried white of an egg on the face (ముఖము జిగురు పట్టినట్లు అనిపించును) or cob web on the face, vi)Body lacks in heat but he craves for cold air (*Carbo veg*), vii)Very important modality and identifying character – the whole rectum is packed with very soft pasty stool which cannot at all be expelled. This is due to paralysed condition of rectum.

**Causation:-** Use of *Alumina* vessels or poisoning of *Alumina*. Many doctors call it a chronic drug of *Bryonia*.

**Inimicals:-** *Ferrum phos* and *Ferrum met* are inimicals to *Alumina*.

### Ammonium Carb

1)It is a very deep acting and constitutional medicine.

2)Fluids acrid including saliva, sore throat, sore in the corners of lips. Tears cause sore in the eyelids or corners. The urine burns unbearable. The urethra is inflamed. The stool burns the rectum, inflamed etc. nose, rectum also. The leucorrhoea in females burns membranes inflamed in menstrual periods – fluids excoriate.

3)Bleeds black blood which doesn't coagulate. In typhoid black blood to urethra. Menstrual flow black and too much in quantities.

4)Heart disease and / or hysterical swooning – Audible palpitation (marked symptom they can hear) మెడ దగ్గర వినిపిస్తుంది. And palpitation of the whole body (*Kreosotum*) (Allopathy – cardiac attack).

**N.B.:-** ఈ పరిస్థితులలో *Digitalis* వేస్టి patient చనిపోవును. Cardiac attack లో కొద్ది నిముషములలో చనిపోవును, అన్నప్పుడు Ammonium carb 30 బ్రతుకును. Lifesaving drug.

5)Blood poisoning (septic condition) sudden fever collapsing weakness, unconsciousness (*Pyrogenum, Opium, Hypericum, Agaricus, Ars alb, Ledum pal, Zincum met, Anti septic drugs.*). The fever is called Malignant fever, locked jaw వచ్చును. దీనినే tetanus అందురు.

6)Quick enlargement of glands – A type of malignant fever చంకలో glands వాచును. Within hours and finally he dies. Acute of filariasis. The face becomes puffy.

7)Unbearable aching of bones, he cries, mouth becomes very hot, gums very painful, jaws and teeth get cramps due to pain, the jaw becomes stiff and death occurs, at any stage *Ammonium carb* will save.

8)Anormous hair fall, fingers, nails split and fall. Nails become yellow and thick. The gums settle away from the teeth.

9)Unbearable headache starting with sparks before the eyes. Then nausea, vomiting (if the nausea precedes headache it is *Cocculus indicus*)

10)Female – menses too soon once in 10 or 15 days, black blood soreness of the parts. Abundant flow with clots and griping – *Colocynth*.

Squeezing colic – *Cuprum met*.

Shooting colic – *Pulsatilla*.

**Modalities:-**

1)< of all sufferings from movement.

2)Heart symptoms and exhaustion < from menstrual flow. In *Ammonium carb* patient menses may cause death.

3)Cholera in 1<sup>st</sup> day of menses. Cholera like symptoms pseudo cholera.

4)Asthma with severe headache and body pains. Asthma attack is > cold weather. Headache and bodily pains < cold weather. (This is psoric condition).

**Inimicals:-** Never use *Ammonium carb* before or after *Lachesis*. *Lachesis* తరువాత *Ammonium carb* వేస్తే రక్తం వచ్చును.

## CACTUS GRAND.

1)Any part of the body constricted. చేయి చాపితే muscles పట్టు పట్టుట.

2)Contraction – hands are contracted or heart sometimes contract.

3)Congestion మూటకట్టినట్లు, stomach, intestines or anywhere. All these things comes suddenly and go (*Aconite, Belladonna*). The suffering appears as if the patient may die at any movement. If you place this drug within seconds he will get relief.

4)Rush of blood to a spot, most probably to head where there is hook life. Congestion in the head. Then dizzy he feels dazed. (He doesn't feel his existence) confused sometimes unconsciousness, it may be in the heart, then there will be cold sweat. It is called heart attack. (*Cactus grand, Aconite, Glonoine*).

**Note:-** In this condition the patient should not be moved from the place. It may be fatal. If he has no hook like sensation the stomach is bloated and consciousness give *China, Carbo veg, Lycopodium*. If he belches and he is better, then it is not *China*. If he is not better and there is no belching it is *China*. He will be better within few minutes. Abdomen bloated – *Aconite*.

5)The chronic is in the following way. (a)Rheumatism when the blood clots as small granules in the small veins and doesn't allow the blood into the muscles. It is called – Rheumatism. It occurs when there is change of atmosphere – dosage *Cactus* 30 one dose. Keep another dose with the patient. All this start with slight temperature. Vital force keep this clots away from the heart and send them to the extremities.

**Note:-**Allopathic treatment should not be given to rheumatic patients. It is better to go to Naturopathy or Homoeopathy. Such patients should stop coffee, tobacco, tea and alcohol.

*Colocynth*:-ముందుకు వంగితే relief ఉంటేనే వేయవలెను.

**Heart murmurs**:-Speedy and suddenly occurs, H/O rheumatic pains. Use of vasodilatation then gets heart murmurs. Then *Cactus g* 30 1 dose.

**Aorta trouble**:-Blood supply will not be there in other parts he becomes cachectic. (నీరసము, తల తిరుగుట etc.) After then give antimiasmatic treatment for one year. Then he may be cured. *Bryonia, Rhus tox, Arnica* may require *Cactus* in acute cases. Sarbitrate – heart patients అలాగే వాడతారు. *Cactus* works on the constitution and minimize the attacks.

Aorta constriction లో *Cactus* 30 6 doses for 3 months it will control. Then it may enter into the brain it is less dangerous, it may be cured. Swelling of feet and hands.

**Note:-** Heart operated cases లలో గాని వేయవలెను గాని ఎక్కువ potency లో వేయరాదు. Muscle pains with jerks. నవ్విసప్పుడు పడితే – *Ignatia*.

**Note:-**The more painful the disease it is less dangerous. While the pains are less it is dangerous. When the pain is less it is dangerous. The more he is worried about the heart. It is less dangerous. If he is callus and indifferent he is it is more dangerous. Real heart patient is least worried his health వద్దలన్న మేడ మెట్లు ఎక్కును.

When he gets heart complaint he will get fear and restless, distress. (*Aconite*)

**Very important note:-**Heart patients కు *Belladonna* వేస్తే చనిపోవును. Vertigo, face bloated, face red, pulsation (rocking sensation in brain or heart).

**Modalities:-**As if a tape was tied around chest. A sharp pain as if hooked with nail or knife and he has irregular breath.

## BORAX

It is called as domestic or perstia drug in west. It is used as mouth wash since 2000 years, it is wonderful.

1)Apthous mouth నంజు పొక్కులు గుల్లలు లేచుట. Inner side of the cheek, throat, stomach (burning cannot take spices). Genitals and anus. In children (nursing) it will come in the mouth and anus. Redness in the mouth and anus.

2)All the above symptoms to the nursing mother and child (give dose to the mother but not to the child – both will be cured).

3)Over anxiety about everything (EX:- ఉత్తరం వచ్చిన కంగారు పడును or any sound makes him to think some body is dead or smashed) వూళ్ళో cholera వచ్చిందన్నా విరోచనమగును. Startling with every word or every noise. Magnified noises. Startling with everything unexpectedly. Music or radio వులిక్కి పడును.

**KENT:-**Intensified activity of nerves and senses. Senses more acute (*Coffea, Ignatia*). Over sensitive to surroundings.

4)Total fear (ప్రతి క్షణం ఎవరో చచ్చారనిపించును.) apprehensive, hysterical. In man – quickly changes from one work to another.

5)Granular thickening of eyelids (చెక్కవలె పని చేయును.) Thickening will be formed, nose inflammation (nose becomes oversized within 10 years).

6)Face pale, clay color (ముఖములో వికాసము పోవును), small vesicles around the mouth సన్నని పొక్కులు పుతో painful గా వుండి పై పెదవి పై వచ్చును. ఇవి nerve endings మీద వచ్చును. Vomiting after drinking milk. (especially in infants) పిల్లలలో పాలు త్రాగిన వెంటనే వాంతి అగును.

**Modalities:-**

1)Fear of death and unconsciousness caused by downward or upward movement. ఆడ వాళ్ళు వుయ్యాల ఎక్కలేరు. (sensation of falling) child cries when placed in the cradle. Riding down the hill causes vertigo. Swinging of head makes him loose himself.

2)Anxiety and restless of mind gradually increases from the sunset to 4 pm (దెయ్యం పట్టిన case లో insanity).

3)Very strong nausea < from intense thought must leave the work and take rest for a while.

4)Throbbing in the ears – roaring in the ears like a rushing river – during menses.

5)Leucorrhoea (white discharge) very profuse and resembling the white of the egg. It flows down along the thighs for 2 weeks (often these children are childless).

6)While nursing a child she gets pain in the opposite breast. (only in *Borax*)

7)Sweat after mid night he wakes and feels very tired.

8)The little child goes on emaciating with wrinkles.

9)All mental symptoms < from sunset to 4pm.

**Causation:-***Borax* poisoning by using Boric powder.

**Inimical:-***Alumina* is inimical to *Borax*.

## BERBERIS VULGARIS

**Introduction:-** It is one of the routine remedies in homoeopathy. It is prescribed for the stones in the urinary bladder. (But it is wrong.)

Diabetes 10% belongs to *Syzigium jambolinum*, rest are *Lycopodium*, *Bryonia*, majority *Sulphur* 35% (weakness < hunger, > eating between 10 – 11 AM)

**Note:-**Any disease on the earth can be cured with *Sulphur* with above modality. Heat burning on head, heart, feet < warm room, > cool breeze. Treatment for 6 – 10 months. *Pulsatilla*, *Natrum mur*, *Syzigium*, has no materia medica.

**Diabetic condition:-** Pains > pressure – *Bryonia*. Pains < touch – *Arnica*.

1)Anaemia condition, feeble, pale, sickly prematurely old (three glitters – hair, nails shine. Wrinkled puffy – *Acetic acid*, *Berberis vulgaris*.

2)Wandering pains in the points and nerves, pains shoot from a point to all directions in the head, knees, trunk(majority), tingling pains (మర మేకులు పోసి కదల్చినట్లు).

3)Pains wandering everywhere. Alternating with pain (a)Liver, (b)Kidneys or (c)Heart. Joint pains alternate with any one of the above pains if the joint pains are better he is near the collapse. But if the joint pains are worse the patient is better. Cannot keep still, he often changes his position due to always disturbed by radiating pains. Pains appears and disappears.

4)Melancholy (విషాదయోగము), moody, apathy, it is opposite to sympathy (it clearly indicates that he is a liver patient. His nails are pale white or yellow) it indicates that he is going to get a serious liver trouble with in 10 years.

5)If the palm is white or yellowish tinge he is going to get liver trouble with in 4 years. Strange ideas, hysterical ideas. *Hahnemann* - "Head becomes bigger in size".

6)All the above symptoms are < twilight, before night. Terrible apprehensions, దెయ్యాలు, బూతాలు, దేవుళ్ళు వచ్చినట్లు.

7)Stones in the kidneys or bladder.

8)Coition – very painful to sex life. Unbearable burning urinary tract. Heart symptoms < coition. It may kill the patient.

## BENZOIC ACID

This is a short drug with definite symptoms

1) All these symptoms are alternating with one another, if one set of symptoms are there. All the other symptoms disappear. Then after one month these symptoms disappear totally and new set of symptoms appear. This cycle may change in a week or once in a month or in 3 months or once in a year or 3 or 4 years.

2) **Keynote**:- of the drug is “disorder – Kent”. “Metastasis” (*Abrotanum*). Joint pains unbearable, pain travels from joint to joint  $\geq$  kidney pain, swelling of limbs, suppression of urine, pale and water urine.

3) Urine full of crystal of sand, brown thick. Quantity increases, strong, foul smell of urine. The whole house smells like horse urine. The boy smells the same in the day. Bed wetting. Many times in the night. (no other troubles during the period)

4) Thoughts of ugly things hunt.

5) Tongue swollen, salty taste, sore burning, throat burning, stomach burning.

6)Undigested loose motions – cholera like motions. The boy debilitates, watery, soapy motions suds నురగ, I, II part of motion, white powdery emulsion (10 to 12 times)

7)Sore mouth, tongue and inner surface, appear as if chapped sometimes it will bleed.

8)Colds < any one of the other sets of symptoms. All other sets of symptoms start with new cold.

9)Asthma  $\longleftrightarrow$  Rheumatic pains.

10)Ladies - prolapse of uterus  $\cong$  with urine symptoms.

11)Heart diseases  $\cong$  rheumatic pains (a)Intense pain in the heart, palpitation, cold sweat, reeling, ringing in the ears (b)Awakens after midnight with pulsations dyspnea (short breath) sweats, jerky breathing.

12)Deep idiotic sleep though many hours of the day and night for few months.

13)Alternates with utter insomnia for few months. During this period unpleasant thoughts (మురుగు కాలువలో పడిన వానితలశ్యం etc,) sadness .

13)Perversion of smells ex:-సంపెంగ పూవ్వు చూసి కళ్ళు మూసిన పకోడి అనును.

**Note**:-Children with bed wetting, horrible smell it may lead to rheumatic pains and heart troubles. Well proved drugs in Homoeopathy are 2672 drugs.

## CALCAREA ARSENICUM

### Introduction:-

Very deep acting antopsoric drug. It is a ranked drug to cure various types of epilepsy, insanity and heart diseases that are not necessary for heart operation (allopathy) due to valve disturbance and heart murmurs. Where there is tissue formations and congenital heart patients. Such patients shouldn't walk more, light up or climb up after operation. They have to live upon fat free diet (death rate in such cases is 60% after operation within 8-10 years when not operated riskless. It is completely and thoroughly cured by *Calcarea ars*. (Action of *Calcarea ars* and *Arsenic alb* together feels puffy, suffocation (breathing in smoke). Ideas continuous throughout the night. *Calcarea* and *Lycopodium*.

*Calcarea carb*:-great rush of blood – the full moon day or around.

1.(a)Trembling, paralytic weakness all over the body (*Arsenic alb*).

(b)Sense of lightness of the whole body as if floating in the air. (*Cannabis sativa, Cannabis indica, Morphinum, Baptisia*). It is a ranked drug in typhoid.

(c)"He doesn't exist to himself a split of second." (He may fall down petitmal). It is a type of epilepsy. (It is of two types. Grandma; petitmal). During the cure of epilepsy he will have sensation of attack, fear, shuddering fear, pain etc.

(d)Epilepsy with aura in the heart. గుండె తీవ్రముగా కొట్టుకొనును. (*Agaricus* - he feels as if a rat running on the hand and gets fit). Pain and sinking sensation in the heart.

2.General weakness, vertigo (Split second unconsciousness – a rush of blood into the head) blindness for a few seconds.

3.Albumen in urine, sugar in urine, blood corpuscles dead and present in urine (haematuria), pus cells in urine – *Bright's* disease and dropsy.

4.Burning pains, restlessness and anxiety (chronic).

5.Frequent quashes of anger < all sufferings of anger.

6.Mental (a)Desire for company. Fear of death when lonely. Confusion of mind while walking. Inability to concentrate. (b)Pleasure in criticizing others. Mischievousness (most dirty nature) intentional mischief where is in *Belladonna* it is unintentional. Obstinate and passive way – తిట్టినా, కొట్టినా అలాగే చేయును.

It is a horrible state of mental psora 200 1dose. Always discontented (criminal – *Opium, Anacardium*). He can pick pocket the father to help the others.

7.Delusions of dead people (శవాలు కనిపిస్తాయి), phantoms విచిత్ర రూపములు గల మనుషులు కనిపిస్తారు.

Mainly vision of fire at night or in dawn or few seconds before epileptic attack. This is only drug having this type of symptom.

8.Severe headaches. The headache is shifted from the lain side of the head to the other side. పడుకున్న వైపు తగ్గి రెండవ వైపు వచ్చును. Indifferent of pleasures. In some behavior నీ ప్రస్తుత ఉద్యోగము మానేస్తే Rs200/- ఇస్తానని ఇద్దరు, ముగ్గురకు చెప్పును. Bluffing nature, extreme sadness < during fever, <in the evening. Ladies < during menses (*Pulsatilla. Calcarea ars*).

9.(a)Repeated cold with loss of desire to eat and strong craving for cold water (b)Stomach disorders from cold foods or from milk. (c)Intense stomach pain after drinking cold water.

10.Drawing back in the throat as if with a thread గొంతులో త్రాడు కట్టి లాగినట్లు.

11.Acrid, offensive, menstrual flow, bloody offensive leucorrhoea.

## SIMPLE DRUGS WITH OUT ANY PROVINGS

### THIOSINAMINUM

1)**KEYNOTE**:-It removes all unnecessary layers of membranes anywhere. Example:-1.Layers in the eyes, 2.Early stages of cataracts 100%, advanced condition 50%.

2)**Note**:-In old age it cannot function. It restores the eyes and restores the vision. Always use only Q daily on for one or two months. Then raise the potency to 6 and use it for 2 or 3 months.

3)Can be used along with the constitutional drug it will not disturb the main drug. Symptoms start from right and travel to left. *Helliborus, Sanguinaria, Lycopodium*.

4)If this layers are left side and travelling to right – *Lachesis + Thiosinaminum*.

5)When the patient is treated with anti psoric drug it through skin symptoms, fellow will get hard growths at toes, fingers, wrist or ankle and if you find the whole body is lifeless (hard shell like) – Give *Aurum ars, Thuja*, (warts in insanity care).

6)*Causticum, Spongia* (Asthma or cardiac disease give raise to warts, they remain there for long time and doesn't go. In such case apply *Thiosinaminum* daily before he goes to bed within 2 or 3 months the layers are removed and warts are disappeared. In such cases be sure that it is a cured case.

7)**Note**:-But it shouldn't be used in uncured cases it will lead to Asthma, cardiac complaints or hysterical troubles.

### TRIBULUS TERISTRIS (పల్లెరు)

1)We will use only root. It can be taken as nonmedical drug, since there are no provings.

2)In Ayurveda it is used to urinate the patient (Diuritic)

3)In the old gonorrhoeal cases they require diuretic drug to pass urine. If we use one or two droops of *Tribulus Q* in warm water before bed – it will make them urinate safely.

4)Removes obstructions of urine.

5)Stimulates the kidneys and bladder to produce urine to filter the blood and to clear the passage (pus cells)

6)In heart complaints there will be oedema with suppression of urine. Use only Q 5 or 6 drops in water daily doses according to the patient after 2 or 3 months you can go up to 6 daily.

7)It is much better than “*Lachesis*” because this has no after effects.

8)If you use *Tribulus* for 1 or 2 years it may become immune. Use *Sulphur 6* and then use *Tribulus* it will function.

### ADONIS (సోపు)

1)It should be used in Q or 6. It stimulates the kidneys urination, goes on in kidney troubles or nephritis (gradual defunctioning of kidneys). కాళ్ళకు నీరు పడితే కూడ *Adonis* వేస్తే urination అగును.

2)త్రిఫల చూర్ణము:- తాడికాయ, ఉసిరి,1/2 కరక్కాయ తేనెలో వేసుకొని తీసుకుంటే it can cure 50% of ailments in the world especially the liver complaints.

### BLATTA ORIENTALIS Q

1)It is the juice from cockroach. It relieves from horrible attacks of asthma. Use only Q if you give 2 or 3 doses there will be no attacks of asthma for 2 or 3 months.

2)Daily one or two doses Q. in some cases 20% there will be permanent cure.

3)In the beginning of 20<sup>th</sup> century timber merchant provided this drug and published.

4)In Kerala 11<sup>th</sup> century తాళపత్ర గ్రంథములో *Blatta* గురించి వ్రాయబడినది. అందుచేత bed bug cimex cut చేసి తాంబూలంలో పెట్టి cure చేయుదురు.

## CRATAEGUS Q

1)It is not a medicine. It can be used for daily doses for any number of years.

**Keynote:**-It strengthens the muscles of the heart. It gives rest and it will function properly. It is a good heart tonic. Palpitation heart pain, heart enlargement, swelling with cardiac symptoms. We can give comfortably this drug.

## ALFALFA Q

1)It increase the metabolic action, weakness, debility – redness.

2)Increases appetite and equalizes the sleep.

## LECITHIN

This is recuperatory drug. It makes the patient to recoup speedily daily 2 or 3 times. It is a tonic for convalescence. It is the glucose present between the two layers of the egg. It can be used in Q, 3x, or 6x. but 3x works wonderfully.

## CONDURANGO Q

ఇది పెదిమిల మీదలో corners of lips ఒరుసుట లేదా పెదిమల మీద పొక్కులు, పెదిమలు పంటికి తగిలి గాయ పడిన

*Condurango Q* daily 1 dose for 1 or 2 months he will be pulled up and cured. Otherwise it may lead to cancer. It can be used for a maximum of 3 months daily.

## RAWULFIA SERPENTINA Q (సర్ప గంధి)

It is used 300 years back. Serpasil an allopathic drug is prepared. It is wonderful tonic. It equalizes hypertension (high BP)

SYMPTOMS:- 1.Heaviness of the head. 2.Vertigo or reeling sensation. 3.Dullness. 4.Staggering.

5.Crawling sensation బల్లి గాని, ఈగ కాని వ్రాలినట్లు అనిపించును. Leads to paralysis. 6.Sleeplessness.

7.Humming in ears. 8.No memory. Use daily Rawulfia serpentine Q 5 or 6 drops in water or in bigger pills. Can be used for life long. It gives paliation but cannot cure.

## **CARBO ANIMALIS:-**

All carbon compounds cure carbon sickness.

Common Symptoms in all Carbon Drugs:-

1.Sluggish circulation bluish face నల్లబడుట. 2.Coldness of the skin. 3.Subjective heat. 4.Suffocated in a closed room. 5.Every sweating (cold sweating)on face. 6.Bluishness on nose and around lips and also on nails.

It is a deep acting and long acting antipsoric drug. It cured number of so called incurable diseases permanently. Sometimes it cures cancer but it cannot be stated that cancer is cured. In some early stages cancer can be cured. In the precancerous condition it everts 100% of cases from going into cancer.

## **Pathological Symptoms of Carbo Animalis:-**

1.Gradual broken down condition. Showing a hardened part of a physical tissues.

2.Slow progressive debility (నీరసము) never recover anaemic condition, chronic “not well” condition.

3.Veins relax appear blue, varicose begin to rupture or ulcerate or boil.

4(a)Little boils repeat at the same place in drugs very painful, hard oozing blue or black blood with much pus. Boils blue in colour or dusky పొగచూరినట్లు.

(b)Boils suppurate and burst but dose of heal remain hard.

(c)Boils refuse to get ripe (painful) remaining hard, out bursting for a very long time.

(d)Infiltration in the boils ruptures or injuries becomes hard, purple or bluish remain unchanged.

**Glands:-** Become painful swollen hard infiltrated sore to touch. (Neck glands of the chin, axilla or stomach, hypochondrium, breasts in ladies (*Pulsatilla*, *Lac can*). Treatment for 2 or 3 years.

## **CANCER DRUGS WHICH WILL SAVE THE PATIENTS:-**

1.Bufo rana 2.Calcarea silicate 3.Carbo animalis 4.Hepar sulph 5.Mercury 6.Thuja 7.Calcarea ars 8.Calcarea flour.

Boils, glands, lumps – slow suppuration of very big boil bursting a little remaining as hard as ever septic fever, septic weakness (heart palpitation, pulse weak, cold sweating dislike for food, nausea, vomiting – Anasarca condition in allopathy. Sensitive painful burning pitting – Hahnemann.

5.(a)Enfeeblement (అతి నీరసము) night sweats and copious menstrual discharges.

Sinks at every menses – Kent.

(b)Hard stone like pimples on the face.

(c)Emaciation of cheek and the facial muscles. “Poor repair” “Lack of reaction“ Hahnemann. The constitution refuses to get cured. The glands the ulcers and the boils refuse to get cured.

6.In ladies:-Empty feeling in stomach, palpitation of heart, while nursing a child. Yellowish, brown saddle (ముక్కు మీద రెండు ప్రక్కలా butterfly గా వచ్చును. *Carbo animalis, Sepia*.

A very good palliative for the pains of cancer.

*Aconite, Carbo veg* inimical.

## CANCER

Characters of precancerous condition. (He is going to get within 5 to 10 years).

1.Cancer is the disease of the constitution and not at all diseases in any part of the body.

2.A person gets changes in the constitution long before cancer makes its appearance on any part of the body.

3.in majority of cases it takes an average of 5 to 6 years for the disease to lodge on a part of the body. Before that it is curable.

4.Long before the physical tissue become cancerous the patient crosses the stage of curability. The patient is beyond cure and then the physical body shows cancer. Hence cancer is incurable. When it appears. In the language of “Dr. Smith” “The constitution is in a state of cumulative of formalities in a stage of insolvency. “

5.The following changes takes place when one gets into precancerous condition.

(a)Un accountable disturbance in the appetite the quantity of food he takes will be greatly diminished or greatly increased.

(b)An obstinate recurrence of group of physical complaints is found every time the complaints leave him weaker.

(c) A rapid emaciation of a stout fellow or a rapid growth of bulk in thin fellow makes the beginning of an incurable stage and hence it may be beginning of cancer in many cases.

(d) The formation of black spots or moles on any part of the body in a group indicates a great disturbance in circulation and many times it makes the advent of cancer disease. (He gets cancer within 1-7 years)

(e) There will be serious disturbance of blood. Circulation and the person suffers from frequent rush of blood to the head. He will exhibit short temper or ill temper or cruelty or misanthropic or emotional disturbances which were not there previously. తాపత్రయము ఎక్కువ అగును.

(f) He begins to imagine many things that can see fear to his mind.

(g) Suddenly he become weak and debilitated and he never recovers from that weakness. Weakness become his constitution. Many times of the day he has to retire, take rest and have to think himself and his physical needs. This is last stage, within one year he will get cancer.

(h) Some such a stage the patient complaints of spasm (గొంతులో పట్టు) hiccough, constipation, cramp severe pain in a particular region.

It indicates the possibility of cancer in that particular region. Inflammation, sore mouth, sore throat, apthae, at a particular spots repeatedly taking place and burning intensely indicate that the part is developing into throat cancer, tongue cancer or cheek cancer, continuous constipation and pain in rectum indicate rectal cancer.

Hahnemann "if the doctor is a donkey the patient will become cancerous".

## BROMIUM

This is one of the most important, strong acting constitutional remedy i.e. unfortunately ignored. It is well proved drug with definite modalities and distinguishing symptoms that make us sure that is antituberculous miasmatic remedy. It cures very dangerous complaints that creep on very speedily or slowly.

In the slow complaints it acts slow and deep, in speedy complaints like diphtheria, it acts in seconds and saves the life. Among acute urgent disease that call on *Bromium* we have to follow –

(a) Group – A dangerous type of cough which causes throat choking within minutes.

(b) Diphtheria – Obstruction or choking in the wind pipe (with barking type of cough) by a membrane he will die (*Bromium, Lachesis, Hepar sulph, Aconite, Apis*).

**Diphtheria:-**

1. In *Aconite* choking within one hour after meal give *Aconite* 30 1 dose and again another dose after one hour.

2. If he wants to be covered, face bluish give *Lachesis* 30 1 dose.

3. Red face, mottles craves for cool breeze kicks of cloths give *Apis* 30 1 dose.

In *Lachesis* – there will be no barking.

4. In the *Hepar sulph*:- walks with croupy type of cough కుక్క అరుస్తున్న గొంతుక. Complaints about throat pain, cannot swallow, prick like sensation, gives 24 hours incubation period. Total loss of voice give *Hepar sulph* 200 1 dose. It will give 30 hours to recover.

5. In *Bromium* – if the fellow have burning in the throat vocal cords, pharynx, dry cough without mucus, while he is breathing he gets irritated, burning in throat give *Bromium* 200 1 dose cured.

Primary complex in children.

Low fever daily, dry cough with burning and irritation in throat, progressive emaciation. Loss of weight common feature.

We can detect number of premature deaths due to tubercular miasm i.e. respiratory complaints between the age 45-50 years. It may come from mother to father.

**Drugs for Primary complex:-**

1. *Tuberculinum*, 2. *Bacillinum*, 3. *Kali bichromicum*, 4. *Lachesis*, 5. *Apis*, 6. *Calcarea carb*, 7. *Calcarea phos*, 8. *Pulsatilla*, 9. *Zinc met*, 10. *Kali carb*, 11. *Hepar sulph*, 12. *Spongia*, 13. *China*, 14. *Chin sulph*, 15. *Chin ars*, 16. *Bromium*, 17. *Phosphorus*.

All the patients require *Sulphur* 6 or 30 to make to react when dull or fail to react.

**Cause:-** Suppression of eruptions. While treating inform the patients –

1. Treatment takes two full years (but normally it will take 1 year or 1 ½ years).

2. Warm the patients. The boy gets a serious boils in croups 1,2,3 like small pox with slight fever 101°F, it will cure, but boils remain for one month and then new ones appear. They have to fore go education due to boils. He will be completely cured when boils are cured.

In the above drug makes to cure him after 2 or 3 months the fellow will be pulled up within 2 days. Otherwise, he will die. His real health is picked up. Then wait for symptoms and repeat the indicated drug. It is more true in *Zinc met*. Same with the other drugs.

**Important notes:-**After *Calcarea* – *Sulphur* shouldn't be given because they are inimicals.

Then give *Tuberculinum* 200 1 dose. He will be pulled up, wait for few days and again give *Calcarea*.

**Caution:-** When we start the treatment you must ask the parents to stop the inorganic glucose (it acts as poison). Give honey with lime juice and hot water. Give him first glucose. It is better to take uncooked food than cooked ones or vegetables. దొండ, దోస, టమోటా.

To be fed – dry grapes daily 2 or 3 times and dry date ఖర్జూరం.

Glands – swelling of glands – *Calcarea carb* etc. on the above list. *Baryta carb*, *Alumina*, *Iodium* (glands hard and hang). Emaciation, canine hunger, weeping.

*Iodium* patient:- craves for cold water, sleeps on the floor without cloths, wets his cloths.

*Tuberculinum*:- Fear with cold air, water < cold water, > warmth. Progressive emaciation, legs become thin and weak and debility in legs (cannot stand).

**Most Important Note:-** world's most incurable disease – declared incurable. Pseudomuscular hypertrophy గట్టి పడితే or dystrophy మెత్తబడితే.

A healthy boy eats well, reads well, gets change between 12<sup>th</sup> year. But often falls while walking. The calf muscles become hard, swollen, the muscle is dead. They cannot stand, walk he will crawl. Finally within 7 years he will die.

**Note:-**If the boy often falls while walking or running give him homoeo treatment. There is no treatment in allopathy in throughout the world. It is known as pseudomuscular hypertrophy. This kills all the male children in the family but not female children. This is due to tubercular miasm. In some cases all the female children will be attacked but not the male. This is due to Mendle's law.

*Bromium* should be remembered to cure such diseases. *X-ray*, *Electricitas*, *Magnacitas*, *Uranium nitricum*.

**Key Note:-** (1)Cough (dry) with choking in the throat. Cough < inhaling "The patient feels as if the breath is not enough" burning in throat while inhaling.

(2)Voice hoarse, raw, painful (R).

(3)Scrofula constitution (prominent glands, bony emaciation). It indicate tuberculosis. Progressive emaciation going into T.B. at any age.

(4)Suddenly sick whenever the person is in heat (throat troubles in children when they are wrapped up) cool air speedily < all troubles after the attack is started.

(5)Sudden onset of acute condition after a very hot day in summer.

(6)Severe asthma < in summer only often the attack starts between 6-9PM.

(7)Loss of voice in a warm room. (opposite modality to *Hepar sulph*)

(8)Swelling and pain in the left testicle repeatedly (non traumatic ದೆಬ್ಬು ತಗಲಕುಂಡಾ). If it is right testicle "*Rhododendron*".

### CALCAREA SULPH

All calcareas are deep acting, very long acting drugs. Especially antipsoric, antisycotic drugs. They bring basic changes in tissues including hard tissues i.e. bone, nails, teeth and hair for long time.

THE COMMON FEATURES OF ALL CALCAREAS:-

1.Hard growths warts, stony hard glands.

2.They show excessive sweating and subjective heat alternating with chills. (just like *China*).

3.They suffer from short breath < from walking and climbing up.

4.Pains of an exhausting nature < from least work (mental or physical). Sometimes physical work brings temperature with bodily pains and nasal colds.

5.Manytimes children will have white loose motions with sweats and objective coldness of the body.

6.Marked change in the mass of the body (suddenly).

7.Frequently big boils which suppurate easily and ooze large quantities of pus. (*Pulsatilla*, *Hepar sulph*, *Psorinum*, *Variolinum*). This symptom is opposite to *Carbo animalis*. ಪೊರಗ ಗಡ್ಡಲು. Typical.

8.The boils may be on muscles, glands, tendons or on bones, sometimes the boils are bone deep.

## II. Constitutional Symptoms:-

1. Easy tendency to form abscesses (*Pyrogen*).
2. The body smells like *Calcium* salts.
3. Body plumpy, chubby, very loose. DUNHAM "All parts of the body move when he walk."
4. Ulcers, injuries, cuts, bruises and eruptions are very slow to heal. They suppurate and ooze large quantities of yellow pus.
5. Malignant growths after prolonged periods of ulceration of injury. It will lead to cancer or gangrene between April to July.

CARBUNCLE:-on back రెండు-మూడు carbuncles ఏర్పడి ఒక్కటిగా తయారగును. దీనిని multiple abscess dose – *Calcarea sulph* 50M. wonderful beautiful గా cure చేయును. Incidentally diabetes will be cured. *Clacarea sulph* 6x cured diabetes in 6 months.

6. Affections on bones (a)pus formation (b)breaking (c)cracks T.B. of bones will be cured wonderfully.

**Strong modality:-**1.(a)His body is cold to touch and wants to be covered and exposed to cool air.

(b)Head is hot but it can never be exposed to cool breeze, headache and all sufferings of the head like toothache, earache eye ball pain, throat pain are greatly < when exposed to cool breeze and greatly when covered when kept warm(converse to *Nux vomica*)

2. Easily disposed to haemorrhages.
3. Twitching of muscles all over the body from covering and warmth of the bed.
4. వేడి వస్తున్నట్లు, పోతున్నట్లు, if heat in breathing over the body especially during menses period.
5. Aversion to coffee, tea, milk and meat.
6. Pain in bones day and night < from warmth.
7. All sufferings < from standing and walking fast and < from warmth in the bed and wrapping.
8. All symptoms are < by 4PM.
9. Well indicated remedies act only a short period.

**Key note of *Calcarea sulph*:-**

Strong hard glands with golden yellow pus continuously, but the patient is weak – *Calcarea sulph* will cure.

## PHRASES

1. Well indicated remedies fail to act – *Sulphur, Psorinum*.

2. Well indicated remedies fail to sustain action – *Tuberculinum, Nosodes, China*.

3. Well indicated remedies act only for a short period – *Calcarea sulph*.

1) If the patient takes 30-40 times coffee due to that he gets irritation. Then give *Nux vomica* 30 1 dose. It will cure the all bad effects of coffee he has taken. But it is not essential to give (*Nux vomica* 30) to all patients before starting for the chronic treatment. *Nux vomica* – removes all the bad effects of allopathic treatment.

2) If the patient doesn't mention any symptoms and symptoms blurred – then give *Sulphur* 30 1 dose. Then after 2 or 3 weeks original case and symptoms will reappear.

3) In epilepsy he got only fits are there and no other symptoms except that then give *Sulphur* 6 1 dose with 2 or 3 weeks he will be cured by *Sulphur* 6 only.

4) In a patient if he is treated rationally with homoeopathy then give – *Pulsatilla* 30 1 or 2 doses within one month. Then bad effects are totally removed.

Symptoms have no sequence or concern. Then give *Pulsatilla*. Real picture will appear.

### **Key notes of Tuberculinum:-**

A. The every drug we used the patient is not better, but symptoms will be better – “No recovery in its real sense”

B. With every treatment the situation is cured but we find the patient is going down – KENT.

5. There are some cases where *Pulsatilla* never repeat, bring the original picture, then give *Sepia* 200 2 dose symptoms will appear.

6. Sometimes some drugs like *Ipecac* is necessary to remove the bad effects of Quinine in malarial fevers.

7. In the heart patients – if the patient shows *Ipecac* symptoms then give *Ipecac* 6 daily for 15 days – it will be cured.

*Natrum mur* 3x daily 2 tablets at night for 6 – 12 months to remove the bad effects of quinine. Symptoms just like malaria to certain extent. The person improves, pick up the body and malarial symptoms and quinine symptoms will be removed.

*Nitric acid*;- In patients shows loose teeth, teeth lost premature gums become spongy, patients becomes chilly year by years. Throat becomes delicate, sore throat. Joints are tied, బిగుసుకుపోవును. Hair fall.

Indigestion and loose motions with above symptoms, nausea, vomitings, nodules on bones – *Acid nitric* 6. 2 to 3 doses within 2 – 3 months. These are the symptoms of *Mercury*. *Mercury* poison liver will be spoiled. *Acid nitric* is a strong antidote of *Merc sol*.

Piles with orchitis (swelling of right testicle – *Acid nitric* 6 will cure)

Cases spoiled with *Mercury* can be cured with *Acid nitric* 6 potency only.

In the above cases if he is administered with *Acid nitric* 6 3 doses the original symptoms will appear in a chronological way belongs to particular drugs.

*China* 10M or 50M:- will cure the periodicity or recurrence will be cured in any disease. Same is the case of *Tuberculinum*. When the person having heart symptom like palpitation and weakness give him *China* 10M 1 dose. This is because it speeds up circulation and heart beat in lower potency.

*Tuberculinum*:-In the case when the physical tissues start decay for example: tuberculosis of lung, ulceration or splitting of blood or vomiting of blood in abdominal T.B. or blood motions in intestinal T.B. Don't go higher than 200. In severe cases where death appears to be near you start with 30. At least half of the patients are saved but few are cured.

In malarial fevers which recur at fixed intervals you have to administer in between *Tuberculinum* 200 and 1M. In mental cases when there are physical symptoms and where the patients appear otherwise healthy. You give 1 or 2 doses of *Tuberculinum* 50M at an interval not less than six months. Then mental symptoms are rectified, becomes insane but he will go into emaciation and go into symptoms of physical T.B. ఇంట్లోంచి డబ్బులు పట్టుకొని పారిపోయే వాళ్ళకు *Tuberculinum* 50M 1 dose వేస్తే 1 సంవత్సరము he will be alright, but T.B. symptoms వస్తాయి. జాగ్రత్తగా వాటిని cure చేయవలెను.

## MERC BIN IODIDE

A very important antisyphilitic, strong and deep acting remedy. It acts with equal efficiency both in dangerous acute infections of the throat, tongue or the kidneys and the urinary tract as well as chronic long standing affections of syphillitics.

The main function is to act on the mucus membranes.

1.The membranes catches cold when exposed to the damp rainy weather or the chill of winter, when the fog is full. An infection attacks when there is sudden full of temperature and dampness in the weather. Especially in a storm, after hot sun like that (*Dulcamara*). In *Dulcamara* all complaints are all acute infections, complaints are < hot days and cool nights.

2.Sudden pain in the throat – very severe (will be cured with 1 dose of *Aconite* 30 1 dose) cannot swallow. One dose of *Aconite* 30 50% cured. (when *Aconite* cannot cure wait for 2 or 3 hours. Tongue red, profuse salivation which couldn't be swallowed or spit (if he is not treated he will die within one hour) and smell rotten meat. (fast decomposing).

**Note:-**Keep always 6, 30, and 200 potencies. In west *Belladonna* (స్త్రి +వశీకరణగ వాడుతారు). Give him *Merc bin iod* 6 1 dose. Wait for 6 months he could swallow something better but again he goes down, again give him another dose of 6 2 doses within ½ hour. He will be better. Then give 30 1 dose. He will be cured.

**Note:-**Profuse salivation with smell is indication of *Mercury*, *Aconite* 6, *Belladonna* 6, *Stramonium* 6 shouldn't be given, he will die.

3.In debauchers – in urinary tract unbearable itching, burning (unbearable) urine will be stopped. Then little drops of urine dribbles. There is blood (*Cantharis*) unless there is mental symptoms *Cantharis* shouldn't be given. Then give *Merc bin iod* 6 1 dose. He will be better within 5 months blood will be stopped, then relief, wait until pain again appears give him *Merc bin iod* 30 1 dose. Even then the whole person smell (*Mercury* vapours from the mouth) wait for 1 week and give 200 1 dose he will be cured.

4.Suddenly he has itching, somewhere in the body where there is thin skin like axilla. Groins folds of buttocks, folds of the testicles, flesh of ears, folds of neck, intense burning. Then there are eruptions like water blisters then they will burst. Then unbearable burning almost weeps.

This is all within 2 hours. Then person begins to smell like *Mercury* vapours or decomposing meat, then give treatment same as above, give 6, 2 or 3 doses.

It is an acute disease. It comes only once in a life time and he must be having, syphillitic miasm. The *Merc bin iodide* not only cures the disease but also cure his constitution.

Loose gums, serrate margins of the tongue, tongue swallow, impression of teeth on tongue, loss of taste, bitter taste, loss of smell, repeated throat pain, decays of teeth is also possible. Excess salivation especially after eating, or frequent nausea.

More often loss of appetite. Extreme weakness, he will be out of breath – *Merc sol*.

### **Syphilitic Miasm Symptoms:-**

1)Smell of mouth, salivation and tongue. *HAHNEMANN* “*Mercury* is antisyphilitic drug.”

2)Then start treatment with *Merc sol* – వీరు అస్సలు complaints చెప్పరు. Suffers from respiratory troubles,

urinary troubles and develops heart diseases

బండ వ్యవహారం, భోజనం

లేకుండా 2-3 DAYS పని చేయును. Personal comfort చూసుకోడు. తప్పకుండా tuberculosis తో చనిపోవును. వారి

heart line

chain వలె వుండును. Low and high B.P. and heart troubles

he counts. These people are having congenital mal formation of heart, he

can't be cured.

He will have respiratory troubles or T.B.

**Inimicals:-***Merc bin iod* is inimical to *Silicea*. It shouldn't be used before or after it. It will kill the patient.
